#### Fact sheet – Timeline of the case

| DATE                  | ACTIVITY / COMMENTS  |
|-----------------------|--|
| Feb 17, 2014          | D4 states Search fee price as \$1,000  |
| Feb 18, 2014          | Inventor pays the fees by check  |
| Feb 26, 2014          | D4 provides search report and closest prior art – 7 citations (No Cobb, No Price, as they did not exist). Convinced that there is no prior art; Inventor filed the application       |
| Mar 27, 2014          | USA National stage application is filed with USPTO   |
| July 15, 2014         | D4 files PCT application (exact replica of USA national app); with USPTO as RO/ISA. D4 is obligated to report communications from PTO within a week to 10 days, by law.              |
| Dec 16, 2014          | USPTO patent grant. Patent references include 7 citations by D4. Search results correct / consistent. (No Cobb, No Price, as they did not exist).                                    |
| July 15, 29, 31; 2015 | Inventor sends reminders asking for ISR on PCT application.  |
| Aug 5, 2015           | D4 mails ISR with Nov 4, 2014 date; with a 2-month deadline (long gone in the past) to respond back.   |
| Aug 5, 7; 2015        | Inventor questions the foul play by D4 asking why the ISR was not delivered in Nov 2014?   |
| TRUTH                 | Report was in reality created in July/Aug 2015, as creating/fabricating the prior art Cobb, Price took months. So, after fabricating the prior art, USPTO issues the sabotaging ISR. |
| 12 December 2018      | Transforming the AUTOMOBILE Industry         Z3Cars – Enabling colorful times  |
