In summary, it is full liability claim from the defendants in USA.

A PCT international application when filed will have the same effect as filing applications in all the PCT contracting states on the same day of filing the PCT international application. In the countries where you do not enter the national stage within the national stage filing deadline, it is considered abandoned on the deadline for filing date.

BECAUSE OF THE USPTO FRAUD, THE COSTS OF REPEAT OFFICE ACTIONS BECAME UNSUSTAINABLE CAUSING LOSS OF APPLICATIONS AND CAUSING LIABILITY. USPTO IS LIABLE FOR LOSS OF FULL VALUE 93 TRILLION EARTHLINGS / \$.

THE INVENTION US 8,910,998 IP RIGHTS SALE PRICE BY THE NATIONAL STAGE AND REGIONAL STAGE APPLICATIONS IS GIVEN HERE.

Total value of invention global IP rights (as conservative sale price)	93 Trillion Earthlings / \$

FOR WORLDWIDE IP RIGHTS SALE PRICE I HAVE CHOSEN CONSERVATIVE:

Expression of the range	10% of the 100-year projected economic activity of my invention across 62 countries. In Earthlings / \$
Conservative	<u>93 Trillion (Chosen)</u>
Conservative-Realistic	94 Trillion – 125 Trillion. I considered 110 Trillion as a final claim in this range.
Realistic	125 Trillion – 150 Trillion. Numerically, I can justify up to 150 Trillion.
Aggressive	150 Trillion – 250 Trillion
Exaggerated	250 Trillion – 300 Trillion

Can media houses conduct a poll locally or nationally to get the pulse of India and Hindus living in India; about the final sale price chosen?

Would India and Hindus living in India want me to claim conservative number of 110 Trillion?

Or a realistic number of 125 Trillion or 150 Trillion?

Or an aggressive number?

Because there is no 'asset valuation' authority in India that could certify my sale price, getting a public opinion on the final sale price would not hurt. The poll result might still be inconclusive, but will enable healthy discussions and awareness of the subject among Indian citizens. I will anyway be the final decision maker on the sale price.

USA IP RIGHTS SALE PRICE HAS ALSO BEEN SET CONSERVATIVE:

Expression of the range	10% of the 100-year projected economic activity of my invention for USA territory (\$)
Conservative	<u>22.5 Trillion (Chosen)</u>
Realistic	30 Trillion
Aggressive	40 Trillion
