To,

Mr. Daren Tang, Director General of WIPO,

Mrs. Reischle Matthias, Legal Officer at WIPO,

and Mrs. Agnes, The contact for all subjects related to the PCT international application PCT/US2014/046619

I am sending you this communication, which is already fully in public domain. Given the communication related to the upcoming 62 sale agreements, to be executed one each with each of the 62 countries, I have proactively provided direction on how I would be distributing the wealth in India in my Living Will executed on 22-08-2022.

While the wealth distribution is one thing, I have started to detail how I would be spending this wealth in India to achieve 'Goal Year 2050 for India'. This work involves a series of reforms, macro-initiatives within India over the next 30 years, which will be emulated by at least 100 or more poor countries in the world, and developing countries of the world, thus having its cascading effects to many world countries.

The 62 sale agreements would be executed with liability payment spread over 12 year period, in most of the agreements. I might consider executing some of the sale agreements which are less in value in form of a one time payment agreement. Bulk of the wealth would be spread in payments across the 12 year period. So, I have created an 'addendum' that will accompany this Living Will, the first of which will be executed by this year end.

The version of 'addendum' that I will be executing at the end of year 2022, is attached with this communication, along with the Living Will executed on 22-08-2022. These documents along with 'Living will with Enclosures' are accessible at my website webpage: <https://srinivasdevathi.com/living-will-93-trillion/>. Some facts to be observed about these documents.

- The expiry date of the Living Will executed on 22-08-2022, is end of year 2034, the year that marks the end of 20-year IP tenure term of my patent us 8,910,998.
- The details of the incoming wealth, and wealth distribution will be published over the next 12 years, yearly, with a total of 13 addendums executed by end of year 2034.

I request you to circulate this communication to all the 193 world country member delegates, which include all the PCT contracting states at WIPO. The execution of these 62 agreements within the next couple years will be the most followed event in the world, with all 193 world countries and over 9 billion human beings following this event with great interest and curiosity.

Let me know if you have any questions or remarks.
