

**WIPO TO EXECUTE A FINANCING AGREEMENT WITH EC  
BY SRINIVAS S. DEVATHI**

**IMPACT OF TRANSITION INTO NEW WORLD ORDER.**

The transition into 'New World Order' would result in the following.

- A truly decentralized and independent set of 193 world countries.
- All the 'New world order' councils paid for in a world neutral currency, Earthlings.
- EC, Earthlings Council controls the printing of Earthlings currency and will be the 'payor' for New world order.
- Earthlings are the 'each country national reserve currency, international business and trade currency'. It is a world neutral currency, ideal to finance and support 'World organizations' with 193 member country delegates, such as WIPO.
- End of old world order, UN.
- End of all old world order UN organs, organizations, and programs.
- End of usd-\$ monopoly. It shall truly become a domestic currency of one country usa.
- WIPO, International Bureau has an agreement with the current day UN, wherein it recognizes your organization as a 'Special agency' and have articles enabling cross organization communications. With the end of old world order, this agreement must be retired, or decommissioned when 'Project Earthling©' goes live and EC, Earthlings Council is established.
- Once EC is established with identified designated signatories, you can discuss, and execute the EC – WIPO agreement.

**WIPO, INTERNATIONAL BUREAU FINANCING AGREEMENT WITH EARTHLINGS COUNCIL, EC.**

Here are some of my remarks with regards to the EC – WIPO agreement.

- Since you are a self-financing organization that earns revenue, EC by the execution of this agreement will support you in financial years where you are observing deficit and carrying losses into next year.

**WIPO TO EXECUTE A FINANCING AGREEMENT WITH EC  
BY SRINIVAS S. DEVATHI**

- The agreement will allow you to do any additional technology acquisitions, or procurement to support your organization, better its performance, and measurement metrics, if you are capturing such information annually.
- The organization can truly concentrate on protecting 'Intellectual property rights of citizens across the world', and administer all the treaties that you currently manage in your portfolio, without having to worry about any surplus costs involved in a particular financial year. The agreement will allow you to hire more resources if required, pay better salary packages depending on the skillset, to better support your organizational objectives.
- The expenses in Swiss Francs, for the deficit years will be directly reimbursed by EC in Earthlings.

**EXPANSION OPPORTUNITIES INTO OTHER COUNTRIES, BENEFITS  
TO WIPO BY ESTABLISHING THE FINANCING AGREEMENT WITH EC**

- Expand WIPO, International Bureau into other world countries, if you choose to.
- Given the financial agreement, you can now hire talent suited for the jobs locally from the country where you have set-up offices.
- Each country offices to record expenses in their local currency by each financial year.
- In an annual re-imbusement model, the local expenses consolidated at a country level by financial year will be paid by EC in Earthlings. This allows you to consider expansion plans into other regions of the world.
