

## **INTRODUCING THE MACRO-REFORMS AT WIPO ASSEMBLY SESSIONS**

**BY SRINIVAS S. DEVATHI**

### **CAUSE OF ACTION TO MOVE INTO NEW WORLD ORDER, BY TAKING MACRO-REFORMS LIVE.**

You are familiar with the following fact set, from my past communications with your organization. Here is a summary of the 'Cause of action' resulting in the legal remedy activities that we must work together to fully eliminate the 'breach of PCT, the Treaty'.

- I am the inventor to patent US 8,910,998 B1, with patent date of 16-12-2014. The priority application for this patent was filed on 27-3-2014, which was given priority application number 14/227,859.
- By taking priority of the priority patent application 14/227,859, I file PCT international application PCT/US2014/046619, on 15-7-2014, with uspto as the receiving office, RO, and the chosen International Searching Authority, ISA.
- On 5-8-2015, uspto issues a fabricated ISR, International Search Report, with fabricated prior art, with a fabricated date of 4-11-2014, nine months in the past, with the fabricated deadline to file article 19 amendments, seven months in the past.
- Uspto fabricates prior art by taking one of the designs, shell design, figure 4, I disclose in my patent grant US 8,910,998 B1.
- On 5-8-2015, uspto breaches Patent Cooperation Treaty articles 18(2) and 19(1). This breach of PCT has resulted in me losing my invention patent rights in 60 world countries, causing worldwide liability for my invention patent rights loss.
- My invention, including the other sector applications and exemplary thermal insulation application, is the highest valued asset in the world. The legal resolution involves withdrawal, deletion of fabricated ISR, and issue of the correct ISR which is consistent with the patent grant US 8,910,998 B1. Further, the full liability payout must happen by way of execution of 62 sale agreements, one each with each of the 62 world countries.
- By conservative estimate, the total sale value of these 62 sale agreements is set at 93 Trillion Earthlings / \$. Given the upcoming execution of these highest valued agreements, I author the necessary macro-reforms.

## **INTRODUCING THE MACRO-REFORMS AT WIPO ASSEMBLY SESSIONS**

**BY SRINIVAS S. DEVATHI**

- I author the macro-economic reform 'Project Earthling©', and macro-governance reform 'United Nations Global Governance Model 2020©', along with 'Right perspectives for the world'. These reforms must be introduced to the world countries, and brought to their decisive voting for implementation, to enable the execution of the 62 sale agreements.
- A negative tactic used by usa against me, must also be presented to the world countries, and brought to its decisive voting.

**WILL BE RECEIVING JUDICIAL ORDERS TO FOLLOW THROUGH WITH THE FOLLOWING STEPS. I LOOK FORWARD TO WORKING WITH YOUR ORGANIZATION.**
