

AD Anna Domini Years V/S FE Freedom By Earthling Years

Factor	AD Years					FE years				
Evolution	<p>The AD years mark poor to negligible evolution of human beings and humanity on planet earth. Human beings are left in the 'Neandrathal' stage with poisons created to attack human beings physically by attacking all their body organs, and with minimal evolution of brain capability and capacity to solve problems. They have achieved the contrary, to diminish brain capability and destroy brain functions by creating poisonous counter molecules to attack all brain regions.</p>					<p>With equality on planet Earth, in the decentralized world, genetic pools by country are allowed to freely evolve, and not be targeted out of racism, hatred, and jealousy prevalent in AD years. This will ensure natural progression in evolution of human brain power and ability by country, when measured over millions of years timescale, and also allow the decentralized evolution of human physical features, which is a subject of availability of original food and Medical council guidance. FE years will enable 'natural evolution' of human beings into future with Medical council advising to retain human height between 5-6 feet.</p>				
Religion	<p>Directionless christianity, formed after the death of prophet with no direction, resulted in the directionless AD years. The religion of HINDUISM was the only religion at the time, providing right direction to the world. AD years, include formation of other religions, another directionless faceless religion islam, joined by some other religions spread locally across few world countries, some meaningful than others. AD years include thousands of conspiracies all directed towards targeting other religions, and in particular the religion of HINDUISM, created, fabricated, incubated, incorrectly documented history, to target, attack, destroy, and terminate other religions including HINDUISM.</p>					<p>Among religions the one with most content and meaningful direction is HINDUISM that was in existence much before the formation of a calendar, AD years. None of the other religions, their central ideology books provide any meaningful direction or guidance to human life, the way HINDUISM does. Once again it is the religion of HINDUISM that brings upon the most transformative contributions to the world, including my inventions, my work of Project Earthling(c) and NEW WORLD ORDER. My work solved problems and evolved the world into the future of equality and independence FE years.</p>				

<p>Civilization</p>	<p>Civilizations existed before AD years, and many formed during the AD years, which were only to be targeted and killed. Across the world countries you would observe that through the 2023 AD years, several civilizations formed, most of them with proper functioning society, a meaningful culture, peacefully living, way of a collaborating community. The rouge usa uk that travelled around the world, colonized many countries where such functioning civilizations existed, not to learn from them, however, to destroy, murder the entire civilization, burn their culture, society, steal all their wealth, leave the civilization in shambles, kill and rape all the families of these civilizations. The ugliness of AD years would be authored in great detail, by authors form across the world for decades to come in FE years. Mutatis mutandis for kingdoms that existed during the 2023 AD years.</p>	<p>The death, destruction, bloodshed, and murder of civilizations across the world in AD years, including that of INDUS VALLEY civilization, is brought to its end, by taking FE years live. I bring to you 191 decentralized functioning societies, with meaningful culture, collaborating communities, and grouping of people on planet earth, by way of which we allow all race, all religion, all ethnic groups, all languages, people of all skin color, people with varying food habits, to co-exist in the decentralized world, the fully protected 191 world countries, by the NEW WORLD ORDER which will enforce International laws and World medical laws. Each of these 191 countries will thrive wherein the majority group, population within the country would clearly take charge and control of the country, with no confusion or ambiguity. All 9 billion citizens of the world, each of you clearly, without ambiguity belong to only one of the 191 world countries, with your patriotism, loyalty, clearly directed.</p>
<p>Negative tactics / Incorrect direction</p>	<p>AD years have only lived up to be cunning, deceitful, fraudulent, filled with negative tactics and dripping with racism, hatred, and jealousy. This further got worse and magnified in the last 300 years with rouge usa uk defining old world order. <u>TECHNOLOGY</u> - While Europe and Asia have contributed the most by way of inventions, discoveries, technological advances, path breaking work, usa uk have only attempted to steal others work, and incorrectly take credit for others work. <u>NOT SOLVING PROBLEMS OF HUMANITY</u> - While people across world, Europe, and Asia have achieved greatness, invented by solving an existing problem faced by human beings, usa uk have only attempted to destroy the world countries, create problems, create trouble, and target 9 billion citizens of the world, across 191 world countries. e.g., atom bomb only to murder millions, nixon technology to build external cages, 20,000 counter molecules to destroy human life. None of their work to this date has solved a problem. With their negative tactics / traits, the ideology was incorrectly directed, and with self proclaimed rouge old world order, the negative incorrect direction was set for the entire world in AD years.</p>	<p>With world neutral currency Earthlings, in the decentralized world, with NEW WORLD ORDER established, Judicial council protecting the International law and world medical law, 191 world countries, and 9 billion people are protected, and can now work by discarding / trashing the negative tactics and embracing positive approach towards life, and problem solving. With WIPO, setting up an agreement with GEC, the intellectual property rights, protection for inventions, technological advances will be made available for all 191 world countries and 9 billion citizens. The world countries, citizens can comfortably look to solve any problems and gain technological advances. There will be no usa, uk to attempt to steal our work by using negative tactics. FE years will protect your work, technology, and allow you to solve problems whether it is local or global.</p>

AD Anna Domini Years V/S FE Freedom By Earthling Years

<p>Psychology / Animal behavior</p>	<p>AD years were fully psychotic in nature, with animal instincts, animal behavior, neandrathal ideologies idolized, marked with brutality, rape, murder, racism, hatred, jealousy resulting in lawless brutal deaths / murders of millions of people, going well beyond billions of people murdered. It was a lawless era, illiterate era, immature era, directionless era, meaningless and cultureless era. The self proclaimed rouge old world order of usa uk did not change anything, however, looked to execute all of these horrors on humanity, in an organized way, by setting up old world order, and puppet un. The era turns into blood sucking vampire era, organ harvesting era, and where they could not solve the problem of second life, they take the psychotic / animal neandrathal direction of using murder as a means of getting second life. Any which way you see, the AD years, the entire era have failed. Everything about this era is wrong.</p>	<p>FE years provide the right future direction with the decentralized 191 world countries, by way of which each country independently takes care of itself, by way of economic guidance, necessary support and direction provided by the NEW WORLD ORDER councils. The neandrathal, animal behavior will end, and a new era will be established. In the FE years, animal instincts incited by drugs and poisons will end, international law will be enforced, era where education will be provided, direction to solve problems including economic guidance / direction will be provided, and functioning culture and society shall thrive in the form of 191 decentralized countries who would lead meaningful lives. This era will be the era of economic progress and prosperity, with equal 191 world countries, and equal opportunity provided to all the world countries looking for economic guidance / direction.</p>
-------------------------------------	--	---

<p>Planet set right, course correction</p>	<p>The AD years did not have any international law in place, nor any medical law in place. By way of monopolized usd, currency of one country, they proliferate corruption across world countries creating 191 slave countries, and 9 billion slaves on planet earth. They have forced themselves onto the world countries, their citizens by putting them in life cages. They build external cages by way of nixon technology. They targeted people by way of dispensing serum technology poisons in food building internal cage. The era is horrible and forgettable, with usa uk rouge old world order showing no respect for any country, no respect for any society, no respect for any culture, no respect for human beings, no respect to humanity, no respect to laws in 191 world countries, inflicted pain, inflicted torture, inflicted created diseases, conducted illegal clinical trials, destroyed families, destroyed human organs, destroyed human lives, used many world countries to conduct poisonous illegal trials to create over 20,000 poisons, counter molecules, and murdered well over a billion people in the last 250 years of AD years. The world we live in, the planet was directed in the wrong way, since they intentionally, in a planned methodical way left many countries ignorant, in poverty, inflicted war, used divide and destroy tactics, waged war to murder and show-off, economic prospects were refused, denied, inflicted unbelievable amount of extortion on world countries and exploitation on world citizens. This era is the worst than 'before christ' years, and is the worst among all the era marked on planet earth. THESE AD YEARS MUST BE ENDED.</p>	<p>FE years will be far superior to any era, block of years, past millenia, that were recorded in the history of planet earth. These will be the years of equality, years that will end all forms of slavery, years that will end all human trafficking, years that will end labor slavery, years that will end sex slavery, years that will end racial discrimination, years that will end poverty, years that will end hatred among people, years that will end jealousy among people, years that will deliver economic prosperity to all countries by making the necessary economic direction along with economic package in world neutral currency EARTHLINGS available, resulting in poverty free, economically prosperous countries within the first century of the FE years. The FE years will have world councils of the NEW WORLD ORDER, that will enforce International law and World medical law, and protect all 191 world countries from any external intrusions or interferences. Judicial council, and the world court at Judicial council will protect by enforcing these laws. Medical council will deliver full life for all the world citizens of all 191 world countries, with documented proven medical practices in the form of medical journals and medical literature. Records council will put an end to the unbelievable amount of misdirecting fabricated historic information to target the world countries, attack other religions, and bring the TRUTH only on the record directly from the 191 world countries. GI-50, and G-193 councils will ensure every country is allowed to clearly voice their perspective on any world issue, and also take decisions by way of decisive voting procedure. All countries are equal, and all countries have the right to vote, and right to sustainable societies, right to functioning cultures, with no poverty and prosperous life. This era will be superior in any way of comparison with the past era, certainly including the AD years.</p>
