		The dissolving wrapper micro-nano molecules are built to nano-second precision, for delivery of counter molecules, read poisons, within human body, and for their action. Allows them to execute sustained release of counter molecules targeting any organ, any cell for several days. Allows them to create psychotic combinations of targeting and attacking human organs, cells, torturing a person for many hours upto days. Serum technology is driven in the direction of torturing human beings, attempting to control all human organs, cells for controlling human beings life for days, to impose labor slavery, or sex slavery. Must be banned in its entirety for saving humanity.									
Organs	Does the physical organ have neural connections to brain? Yes / No.	Over the indicated timeline, with the precision of upto a second (technically upto nano-second), any of the following actions, reactions, negative effects could be induced by counter molecules, read poisons, on the physical organs and all the brain regions. The poisonous action could start at any time, be in play in the human body for any amount of preset time built into the serum package, stopped anytime, restarted at a later time and so on. A single serum package dispensed into the food consumed by you, could act inside you for days, with the schedule plan of action to release counter molecules, built and controlled for release through every second, every minute, going into hours, and days.									
Brain region 1		Through the timeline, spanning few minutes to several days, serum package negative capability includes manipulating any of the 100 brain regions or all of them negatively, <u>wherein the thousands of counter molecules, read poisons can hypoactivate, hyperactivate, sedate, numb, induce distortion, induce torture, induce noise, neutralize, induce heightened state of activity, deactivate, or take to anesthetic sleep state, at will.</u> In the 20, 000 counter molecules created by usa pharmaceutical companies, all brain regions could be attacked this way. Human brain, all its regions work at best, when unintruded or uninterrupted with counter molecules. The case studies are many to be documented, from inducing designed dreams / thoughts, to inflicting permanent torture, to build a revenue model for removing torture / switch-on for brain functions to work. usa uk hatred towards world includes sildenafil citrate revenge on world, 191 countries, 9 billion people. They want to switch of all neural connections for male, female during and after sex. They want to switch off brain regions that perceive all joy, happiness, satisfaction, pleasure, excitement, contentment. With no such interference of counter molecules, all brain regions will function, and perform at their best.

neurons		The composition of brain are neurons. Brain and neurons perform their functions very well, beyond 100 years of human age. Usa uk have built counter molecules to disconnect neural connections.

Glands in human body could be activated any time at will targeting any region, to any degree they want. They possess several counter molecules to manipulate the human body temperature at will, that have the capability to incapacitate a person in few seconds. factors targeted negatively, weight		The counter molecules can manipulate weight by manipulating any organs or all organs. Out of racism, hatred, jealousy, they have attacked citizens across the world by targeting their weight. With regards to weight, after fully banning serum technology, Medical council to provide the following guidance. 0-20 original food, parents guidance eat enough. 20-60 original food, eat enough and manage yourself. 60-99 preventive, supplement program to take you into 90-99.
factors targeted negatively, strength by manipulating bones strength, weight in correlation with non bone weight.		There are counter molecules to weaken bones at will, to drill pores into bones to weaken. Out of racism, hatred, jealousy, they have attacked men from across the world to target their bone strength. Medical council to define a new metric bone weight to body weight, a ratio closely tracked by men to ensure their bones not targeted.
Brain, all brain regions, and neurons in brain.		Expected to perform all its functions well beyond the human age of 100 years. All counter molecules will only interrupt, or interfere with the normal function of human brain. And interference, by way of counter molecules can only target brain functions and its performance, like it is indicated above.
All physical organs of human being.		All human physical organs, in this context excluding brain, will perform their functions well beyond 100 years of age, if not targeted by the counter molecules created by usa pharmaceutical companies. For all the physical organs, between ages of 60-99, preventive molecules available to avoid an occurrence of a disease entirely, supplements available to maintain, manage the organ if required, to deliver comfortable life with mobility to all world country citizens, over 9 billion of them across 191 world countries. The Medical journals and medical literature owned and made accessible to all world countries and world citizens, will be established by Medical council, to deliver full life for all human beings, while in the age of 90-99, the human heart is expected to stop.
Dispensation of 'Serum package to human beings'.		Dispensation of 'Serum package to human beings', anyone, could be done by way of invisible to eye, nano-particulate substances that are capable of wrapping many thousands of counter molecules, read poisons, in any food item, any packaged beverage, drink, water, packaged food, suspended at any level in drink by manipulating molecular weight of the serum package, which could act inside your body with the highest of potency, and act for many hours or days.

<p>usa uk, rouge old world order abuse of humanity over last 250 years. Psychotic objectives.</p>		<p>All forms of cancer are created and induced to human beings, by usa uk rouge old world order. They have induced lab created multiplying cells, called it disease cancer, tortured and killed people across world. The fields of neuro-science and psychology were supposed to be fully fabricated by usa uk to create counter molecules targeting human brain, all human brain regions, and neurons in the brain. All viral fevers are induced by usa uk across the world. All diseases related to kidneys, and pancreas including diabetes are supposedly induced by counter molecules created by usa uk to generate revenue from human organs and sales of products. Like you can clearly recognize from the above, that all human organs are expected to function well beyond 100 years, going upto 200 years or beyond, with heart stopping in the ages of 90-99, usa uk rouge old world order started the 'Heart harvesting program' to get second lives.</p>
