

uspto breach of PCT articles 18(2) and 19(1), published and proven with documented evidence, shown on PCT Timeline published by WIPO.

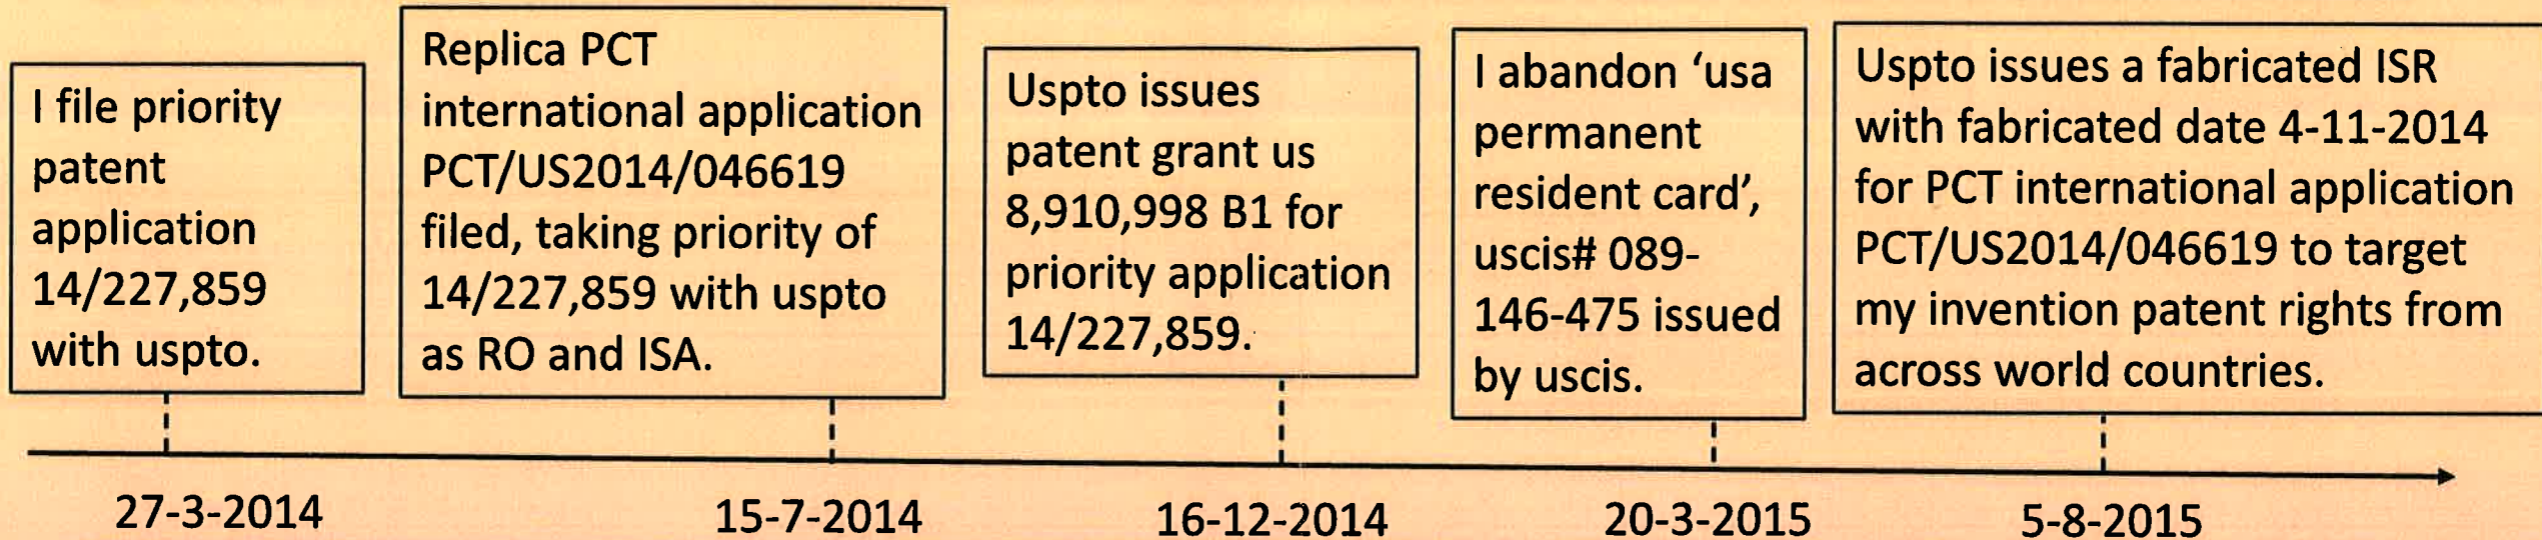

### PCT TIMELINE

26 October 2023

PCT Application Timeline defined by WIPO. Uspto issues fabricated ISR with 9 months past date.

Timeline of uspto breach of Patent Cooperation Treaty articles 18(2) and 19(1), intentionally and deliberately committed to block my invention patent rights from across the PCT contracting states / world countries.  
 Uspto – United states patent and trademark office. RO – Receiving office. ISA – International Searching Authority.  
 Uscis – United states citizenship and immigration services.

I abandoned 'usa permanent resident card' on 20-3-2015, 180-days past my return date to India 19-9-2014, according to uscis rules, intentionally without filing any documentation to retain the 'usa permanent resident card' with uscis within the set timeline of 180 days. An Indian citizen by birth, and a permanent resident of India, most importantly with intent, willingness, commitment, and patriotism to contribute to the economic growth story of my country India, I wanted to bring the wealth from my invention patent rights from across the world countries to INDIA. After 20-3-2015, abandonment of 'usa permanent resident card', in the months of April, may, June, and July of 2015, uspto fabricates prior art and issues a fabricated ISR with fabricated past date, 9 months in the past, to destroy the wealth from coming to India, hence targeting me, India, and the religion of Hinduism. The plan to terminate the religion of Hinduism, and keep India in poor country status, not allow any economic progress opportunity is the intent and clear motive of uspto, in committing this fraud.
