

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 1 Description. Serum package for varying the target subject 'Human body temperature' to any temperature, to deliver diabolical effects, in this the case study explains details of serum package to simulate and deliver 'extreme heat desert conditions' in any world city, e.g., Bangalore.

Serum package attacks the following organs

- urinary system and kidneys, fully shut down, switched off for 24 hours, prior to the 6 hours.
- Eyes, hyperactivated rods and cones, delivering intense glare and brightness in eyes
- Sweat glands, hyperactivated to drench person in sweat anywhere across human body with highest precision
- Drying agent poison, causing intense uneasiness, dry mouth, and dry throat, delivering sensation of left in desert heat, dehydrated, will collapse and die.

Serum package attacks the following brain regions

- Brain region receiving optic sensory input, hyperactivated to perceive intense glare, and simulated increase in body temperature.

Serum package estimated timeline of action

- 30 Hours. 6 Hours of 'desert heat condition' delivered to target subject. Fully disconnected to the atmospheric conditions on the day. Serum package overrides and takes control.

Objective

- Torture and attack human beings for sadistic psychotic pleasure.
- This is to frame and attack men from 191 world countries.

Purpose

- Set them up for kill and organ harvesting, include heart.
- Body temperature increase to 100, or 103 degrees, could be pushed to result in instant collapse and hospitalization.
- Within seconds you will collapse. Set up for kill, organ extraction.

Camouflage. do'nt be deceived.

- They will say package used for temporary attack, and sale of sunglasses.
- Hidden agenda young men 'SEE' and cover up by sun glasses, setup for murder.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 2 Description. Serum package for making a target subject absolutely useless, unproductive for preplanned set of hours, or days, by targeting his/her brain regions and reproductive organs, to ensure person does not read, write, study, work, be productive, and is rendered useless, and also framed for organ, heart harvesting.

Serum package attacks the following organs

- While rendering the target subject unproductive and useless, is the central objective, in combination with rendering the person useless, the serum package could attack certain physical organs, with incitational poisons, drugs, counter molecules to continuously incite sexual, reproductive organs, to frame the target subject negatively, for organ, heart harvesting. Such attack is mostly directed against young men to murder them. The incited physical organs include prostate, groin, testicles, and penis, inducing multiple erections and further erections of varying lengths, continuously inciting him to have high frequency of jack off, and out of control, to attack and murder. Other organs to be used, attacked by the serum package include sweat glands, breathing, and inducing variations in body temperature. Some names of known incitation poisons could also be used in these serum packages. e.g, LSD, Ecstasy, cocaine, heroine, charas, hashish, ganja, marijuana, brown sugar, etc. Mutatis mutandis for Female sexual organs, if a target subject is set up with continuous incitational drugs, for delivering physical heat, inciting estrogens, to activating her sexually, were intended to be used in rouge old world order.

Serum package attacks the following brain regions

- This package acts on several brain regions. Brain regions responsible for thought processing, memory access of past memories, long term, mid term, cognitive region of brain, and negatively effects, targets, attacks, a dozen brain regions using which the person can read, write, study, work, be productive, and finish projects. To render a person useless, the brain region that is responsible for 'Information processing' must be kept occupied in useless, nonsense, rubbish, repeat, looping, worthless set of thoughts. This ensures that the target subject, his 'Information processing region' is not applied to read, write, study, work, execute projects, and engage in productive work.
- Serum technology, has the capability of playing screenplayed set of images, screenplayed set of movies, screenplayed set of forced thoughts in the form of images, or screenplayed set of forced thoughts in the form of movies, in the brain of the target subject. This accesses few other memory regions of the brain, since this can be done only with information that is already in the target subjects brain. The technology cannot plant a new word, new line, new song, new movie, new technology, or new subject that is not already recognized, and known to the brain. This playing of movies, triggering songs for the target subject to sing, images, screenplayed movies, access the memory regions of the brain, is to keep the 'Information processing region' occupied. The serum package can use this to continuously loop or repeat this useless set nonsense, keeping the target subject occupied for several hours rendering him/her unproductive. This is an alternative to other ways of neutralizing these brain regions, by inducing distortion, rendering them partially functioning, or numbing the brain regions. In the screenplayed movies, the subjects could be replaced by anyone from your past life by using their image, photo, stored memory in brain. They can also play, replay, plant, known words, songs, movies in the target subjects mind to keep the target occupied in useless thoughts. Planting thoughts about next day restaurant to visit, what lunch to eat, is also an art mastered with serum technology, attacking the target subject, that was observed for several months, after building a pattern of his/her life. With this technique, and approach, blocks of hours could be rendered unproductive and useless, ensuring the target subject is not doing any real work that he/she must.

Serum package estimated timeline of action

- Serum package action for 12 hours, or if known schedule for extended block of 24 or 48 hours, the target subject could be attacked, rendered useless, unproductive, and also framed for murder.

Objective

- This is to keep target subjects useless, unproductive, and also to frame and attack men from 191 world countries, drawn to other drugs, poisons to be murdered for organ, heart harvesting.
- Torture and attack target subjects for sadistic psychotic pleasure. Incite the target subjects so that they walk in, to be used and abused.

Purpose

- Render the target subject useless, and set them up. The incitation could include over dozen erections induced for target subjects, say within six hours, and brain regions targeted, to set them up for murder.

Camouflage. do'nt be deceived.

- They will say package is for fun, for a night, weekend, vacation. Absolute nonsense. You will die. All human beings are born to have a great family life, you need no incitation of any physical organs, brain, nor you must become useless.

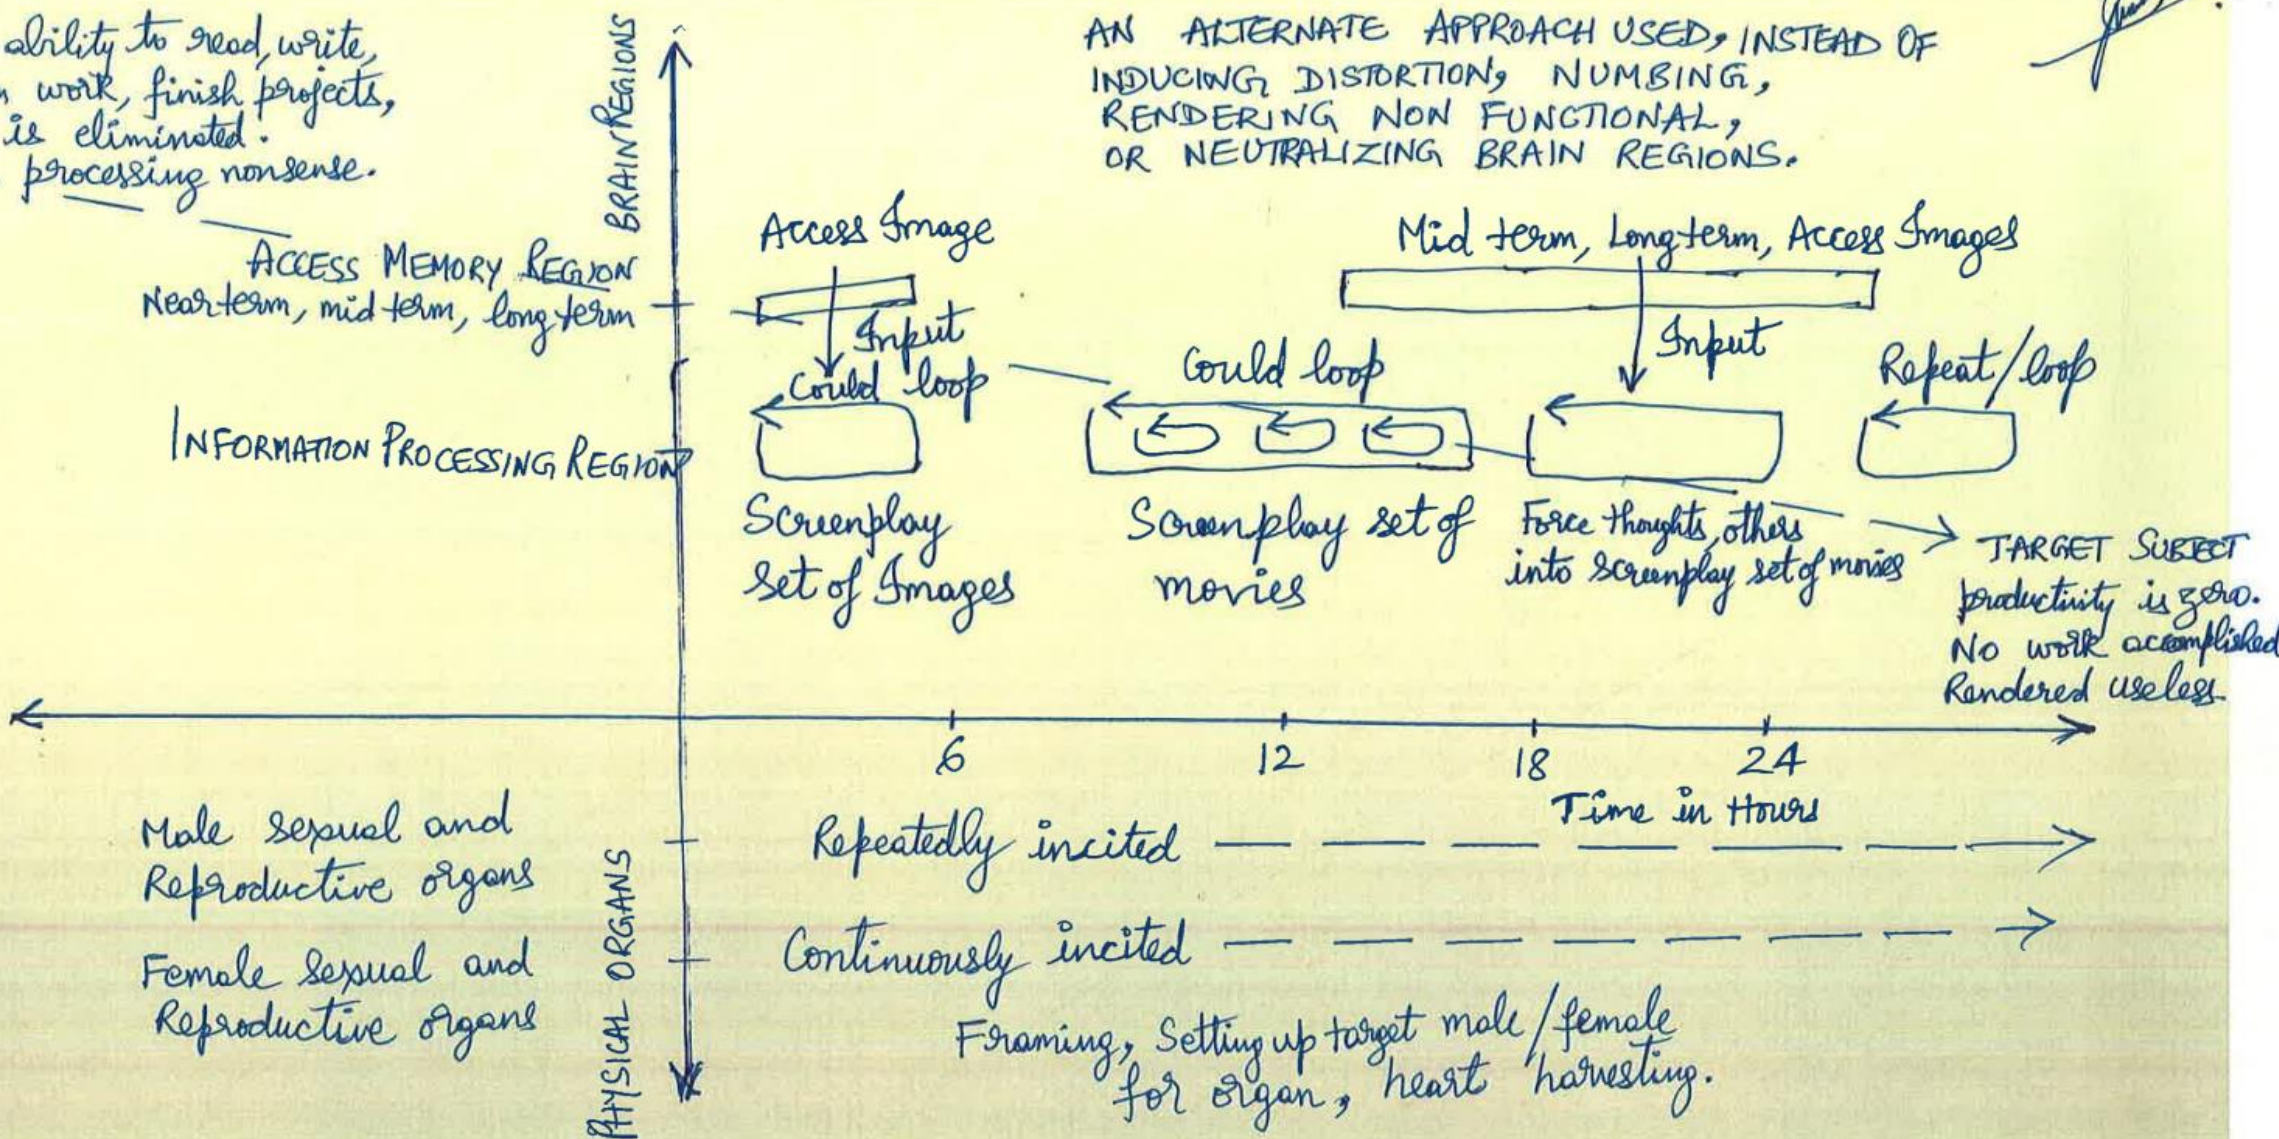

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

James DS

Brain ability to read, write, perform work, finish projects, is eliminated.
 - Brain processing nonsense.

AN ALTERNATE APPROACH USED, INSTEAD OF INDUCING DISTORTION, NUMBING, RENDERING NON FUNCTIONAL, OR NEUTRALIZING BRAIN REGIONS.

Rouge psycho 'serum package technology' scenarios, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 3 Description. Serum package for making a target subject absolutely useless, unproductive for preplanned set of hours, or days, by targeting his/her brain regions. Using counter molecules to cause distortion, disruption of brain regions, neuron functions, also using continuous looping screen played thoughts, and movies.

Serum package attacks the following organs

- No physical organs used in this serum package.

Serum package attacks the following brain regions

- Continuously played thoughts, screen played images, and movies, occupying productive brain regions, with continuous looping random images, movies, resulting in rendering the target subject useless, and unproductive. This technique keeps the 'Information processing region' occupied and ensuring no work is accomplished by the target subject.
- This serum package acts on several brain regions, the index of brain regions yet to be published by me. Brain regions responsible for thought processing, memory access of past memories, long term, mid term, cognitive region of brain, and negatively effects, targets, attacks, a dozen brain regions using which the person can read, write, study, work, be productive, engage in executing projects. With these brain regions, the serum package induces distortion, disruption of neural functions, numb, hypo activate, ensuring the target person cannot work at all, and is in a semi sleep or neutralized state.
- This serum package is one of the several adhd serum package combinations used to destroy academic achievements, performance of school and college students.

Serum package estimated timeline of action

- The serum package could act for blocks of 4, 6, 12 hours, or more. Can span days, if persons schedule is known, rendering person useless and unproductive,

Objective

- This is to make believe citizens of 191 world countries, that you are naturally unable to read, write, study, work, be productive, achieve results, and need brain drug support.
- Once drawn, not knowing that the source problem was fabricated and induced, you will be made to loop in brain drugs forever, setup for murder.

Purpose

- Select talented, high achieving, high IQ, strong aptitude, mental ability, scholastic ability skilled students, from across 191 countries, and render them useless, and make them fail exams in schools and colleges.
- This was to keep 191 countries in slavery. Talent nipped at bud, means the country lost a contributor, work force weakened, state, and national GDP negatively effected.

Camouflage. do'nt be deceived.

- They will say it is really happening to students. It is some brain disorder. Take our drugs, more poisons.
- Absolute nonsense. You will die. Never come out of brain drugs that will only kick your brain regions in all directions with no outlet.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 4 Description. Serum package for manipulating brain regions, drive a person insane, by inducing insanity thoughts, in this context insanity towards fellow family member, relative, friend, or colleague at work. A trigger in brain inexplicably inducing urge to push a person in front of train, off the terrace, of the mountain, and kill.

Serum package attacks the following organs

- Skeletal system, bones, and joints. An impulsive, precisely timed to the second physical movement of forearms, hands to push a person synchronized with moments of brain insanity. To execute this the scheduled of when the couple, team of people are on a high rise terrace, on top of mountain, at a cliff, trekking, trailing schedule must be known.

Serum package attacks the following brain regions

- This package acts on few brain regions. The brain regions for cognitive function, rational mind function, thought processing, and stable centered balanced sane thinking must be switched off, numbed, neutralized, rendered non-functional, with induced moments, or extended time of insanity thoughts, creating precise insanity moments of triggering thoughts of pushing a person to their death.

Serum package estimated timeline of action

- According to schedule of them being on high terrace, top of cliff, mountain, even waiting for train, serum package action for 2 or 4 hours, with precise bursts of insanity and inciting physical movement to push.

Objective

- For causing random deaths, target specific people, destroy specific families, frame a person as a murderer and get him/her death penalty.
- A induced death, murder with cause unknown.

Purpose

- Eliminate anyone that they want killed, in what they say according to law, because STUN is not yet LIVE that will prove it otherwise, by disclosing the serum package used.

Camouflage. do'nt be deceived.

- They will not sell this. They have and are using it across world countries, on select targets.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 5 Description. Serum package for manipulating several brain regions, drive a person into a state of hopeless, worthless to live state, no prospects in life, nothing to look forward to, no one to trust, everyone cheated him/her, everyone attempted to use and steal from him/her, pushed over the edge, to attempt to commit suicide.

Serum package attacks the following organs

- Physically weakened, and the target subject forced into isolation by himself / herself, with weakened energy levels, lowering blood parameters, and electrolyte levels, forcing the person to confine himself / herself into enclosed space, a room, or house.
- The weak physical body is also rendered absolutely restless, unable to stand, sit, lie down, stay in any one posture, this is the negative serum package magnified suicidal force pushing the target to the point of no return, the physical movement induced in the last 60 minutes of when the subject forced to physically move in the confinement, or get out and attempt to commit suicide. e.g, hang himself/herself, jump of a high rise building, slit their wrists to bleed to death.

Serum package attacks the following brain regions

- This package acts on several brain regions, by attacking well over 50% of the brain. While setting up the person to be in confinement could be over several weeks or months, the serum package itself is an at least 48 hours or 72 hours poison. The serum package works on several brain regions, to create an entire array of thoughts of a doomed life with absolutely no outlet, no option, no choice, no way of survival left. On the isolated target subject, magnified heightened torture is inflicted for the full 48 hour period, with intense severe unbearable, intolerable trauma, buzzing in brain, hyperactivated regions to maximize the perception of torture, resulting in the target subject considering such pain torture filled life is useless, and not worth living.
- On the isolated target subject, the serum package acts on brain regions that are responsible for
 - - controlled, centered, balanced, steady state, calm, stable state of the person, connected with central nervous system, which is punctured, which are rendered non functional, neutralized, fully distorted, leaving the person in an absolutely restless state, where the meaning of sanity, calmness is non existent and forgotten.
 - - perceiving pain are made hyperactive, and the counter molecule, a complementary molecule to the anesthetic molecule is activated for the region taking you into a heightened state of perceived magnified pain, and suffering.
 - - sensing and perceiving human emotions, with only magnified residual emotions, thoughts of life is only suffering, life is only pain, life is a burden, and life is not worth living.
 - - inducing magnified states of unbearable depression driven into thoughts of abyss of death, and cannot see anything other than emptiness, hopelessness, worthlessness, and futility in life.
 - - magnified perception of state of fear, and forcing a state of inaction, indecision, ensuring mind is fully closed, unable or not able to find a way out. This needs the rational thinking, sane mind, thought processing, and logical reasoning brain regions fully switched off.
 - - disabling the sense and memory of joy, happiness, excitement, pleasure, satisfaction, and contentment in life. They are non existent, unknown, forgotten, cannot retrieve a memory because these regions are fully shut down, and rendered non functional, non existent. Not a memory or thought of positive source of energy can be allowed, to push the target subject to suicide.
- with the above, the serum package evokes and leaves the following dominating residual thoughts, only residual negative thoughts, doomed life, not worth living, no outlet in sight, synchronized with the induced physical restless body to move and go for what is made to seem inevitable.

Serum package estimated timeline of action

- This is a serum package with linear, parallel, and combination serum packages packaged into one extremely potent loaded with poisons, counter molecules, with elaborate, detailed, extensive, unbelievable breadth of action within the human body and brain for at least a full 48 hours, or 72 hours when you are pushed to commit suicide.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Objective

- For killing the target subject with the designed serum package, while saying person committed suicide.

Purpose

- Eliminate anyone that they want killed, because STUN is not yet LIVE that will prove it otherwise, by disclosing the serum package used at the target.

Camouflage. do'nt be deceived.

- They will not sell this. They have and are using it across world countries, on select targets. Several suicides across the world countries are induced by serum packages.
- It is not what you are doing to yourself, it is what they are doing to you.

An estimated 2,000 going upwards to 3,000 poisons, counter molecules are wrapped into this highly poisonous loaded serum package that acts for at least the planned 48 hours.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Case Studies 6 and 7 Description. Serum package for manipulating several brain regions, drive a person into a state of hopeless, worthless to live state, no prospects in life, nothing to look forward to, no one to trust, everyone cheated him/her, everyone attempted to use and steal from him/her, pushed over the edge, to attempt to commit suicide, either by jumping off a high rise building, or by slitting their own wrists in their attempt to die.

The Serum package case study discussed in the previous slides is used mutatis mutandis, for attacking target subjects, inducing attempts of suicide by

- Attempting to jump of a high rise building, or
- Slit ones own wrists to bleed to death.

A subset serum package acting for lesser number of hours is used to induce these serum package case studies.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 8 Description. Serum package for framing a male target subject as reckless, out of control, and setting up the target for organ, heart harvesting, by targeting his brain regions and reproductive organs. The framing in this case is that the target jacks off in high out of control frequency.

Serum package attacks the following organs

- Male sexual organs for continuous incitation, to make the target subject be stamped as out of control, reckless, high frequency jack off subject. e.g., To make the target, jack off a dozen times say in span of 6 hours.
- Prostrate, activated by counter molecules, to induce target number of jets of semen releases according to serum package design. Groin and testicles, activated, incited, heated up, burnt, to continuously generate sperm coordinated with the releases according to serum package schedule design.
- Penis blood flow varied to give it various different erection dimensions to continuously incite the target for a forced dozen releases in say 6 hours.
- Some names of known incitation poisons could also be used in the serum packages. e.g, LSD, Ecstasy, cocaine, heroine, charas, hafim, ganja, marijuana, brown sugar, etc.

Serum package attacks the following brain regions

- This package acts on several brain regions. While inciting physical organs is one factor, arousal by induced thoughts in sexual activity perceiving brain region, and brain region incitation, for forcing the target to jack off are used. This serum package must create a lot of distortion in certain brain regions, rendering certain regions of brain termed as stoned, and also switch off the brain regions responsible for rational thinking, relaxed state of mind, calmness, and sanity of thought.
- The distortion of brain regions, incitation drugs force the target subject to repeatedly jack off, frequency and count controlled by number of intermittent erections of varying dimensions induced by the serum package.

Serum package estimated timeline of action

- Depending on the target subject that is to be framed, serum package could span 6 or 12 hours, resulting in high number, count of jacking off, masturbation.

Objective

- This is to frame and attack men from 191 world countries, saying he is out of control, reckless, too much libido and must be controlled. Drawn to other drugs, poisons to be murdered for organ, heart harvesting.

Purpose

- Set men up for murder, and organ harvesting, including heart.

Camouflage. do'nt be deceived.

- They will not sell this. It is used against men from 191 world countries, to frame them.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 9 Description. Serum package for framing young male target subjects as people having phobias, fear, and setting up the targets for organ, heart harvesting, by targeting his brain regions and reproductive organs, simulating a non existing phobia, E.g., Fear of meetings, fear of exams, stage fear, etc.

Serum package attacks the following organs

- Male sexual organs for incitation, to make the target subject be stamped as scared of ' _____ ', he has fear of ' _____ ', by simulating the fear, apprehension, setting up the target subject to go seek help saying he has fear of _____, or forced to jack off, making him think it is out of fear.
- Rouge usa uk have listed a random rouge list of phobias, non existant in the world. All fear, all phobias are simulated on target subjects across the world. This stating exception to what are considered extreme sports, stunts, which are not for well over 99.9% of world population.
- For making the target male believe that he has fear which resulted in him jacking off, they will certainly time the serum package usage, acting on prostrate, for semen release, Groin and testicles, for sperm release, according to serum package schedule design, with or without penis erection simulating the fear causing release, jacking off, the intended objective. The male organ incitation is similar to the explanation in previous case study.

Serum package attacks the following brain regions

- This package acts on few brain regions. This serum package could either be coupled to target physical organs, or could just use and attack the brain regions. The serum package attacking only on the brain regions (rarely coupled with increase in heart rate beating precisely timed) will directly simulate fear, apprehension, sowing a seed of doubt, lack of confidence in the target subject, to which if the target gets deceived, will think this is real, and complain that he has fear of _____. Fill the blanks with meetings, exams, stage, or other. If it is to be forced on the target synchronized with physical organs, the simulated fear is coordinated with a forced or induced semen release, all serum package controlled. The brain regions responsible for rational thinking, relaxed state of mind, calmness, and sanity of thought are switched off, brain region perceiving emotion, is hyperactivated with induced perception of doubt, fear, apprehension, and lack of confidence.
- With me they tried to simulate fear of enclosed spaces, in lifts, by inducing precisely timed, restrictive breathing and induced thoughts of fear and apprehension. I was able to clearly piece the serum package usage attempts of rouge usa. Similar attempts of them to simulate fear of _____ in me, all have failed. I am fearless, and responsible. I suggest young men of all 191 world countries to take confidence from me and become fearless, and responsible.

Serum package estimated timeline of action

- Depending on the target subject that is to be framed, the schedule, timing of the event, meeting, exam, stage address, the serum package is designed to work and act for few hours, spanning the scheduled event, resulting in the attempt of simulation of non existing fear.

Objective

- This is to frame and attack men from 191 world countries, saying he is scared, has fear, does not have confidence, and must be drawn to other drugs, poisons to be murdered for organ, heart harvesting.

Purpose

- Set young men up as scared, and in fear, set them up for murder, and organ harvesting, including heart.

Camouflage. do'nt be deceived.

- It is used against men from 191 world countries, to simulate, induce, and inflict fabricated fear. I refer you to POV FE 13, SrinivasDevathi.com.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 10 Description. Serum package for attacking all young men across world countries, framing that they sweat. To achieve this they switch off the function of kidneys and urinary track. This system to be received by the heart transplant recipient, rouge old about to die white trash of usa.

Serum package attacks the following organs

- The serum package acts on young men, to get them to continuously sweat. This is achieved by switching off the function of kidneys, and urinary track system, in their entirety. And force all the fluid, liquid consumed by the young man through the hyperactivated sweat glands. The hyperactivation of sweat glands could be anywhere across the length and breadth of human body, and the sweat is pushed out in precisely calculated volume, at the precise time, according to serum package design. They also use an alternative to periodically reduce the sweat forced out, and ensure no usage of kidneys, urinary track system, by using the dangerous, diabolical, dryness poison, counter molecule, which absorbs all water from with the human body.
- The following normal human organ function to be understood clearly, to thoroughly comprehend this case study. Young men, men, drink water, milk, juice, beverage, through the day without bothering to measure the volume of fluid consumed, generally ranging between 750 ml to 2 liters depending on the day, seasonal conditions of the country. All the fluid intake is processed by kidneys, and urinary track system holds it for release at normal frequency. Record that kidneys process and absorb the nutrients from water, juice, milk, beverage, ice creams, supplement drinks, fluids from semi solid food, and nutrients delivered to the blood and human body. After human is 100 years old, in the rouge psycho white trash heart recipient second life, the digestive system, stomach functions are functioning at an estimated 25% or lower capacity and the second life recipient survives on fluid, and semi solid foods, for which kidneys and urinary track system are most crucial.
- So, the switching off, of the kidneys usage for young men, making them work at 1% of their general usage, will retain them in prime, mint condition which when received by the old trash will function exceedingly well, delivering vital nutrients and energy for expectedly the next 70 years of the rouge trash second life.

Serum package attacks the following brain regions

- This package need not act on any specific brain regions. However, to make the young man believe that he is sweating because of his own higher frequency of jacking off, or masturbation, they might use the serum package to attack and incite various brain regions forcing higher frequency on young men, like explained in earlier case studies.

Serum package estimated timeline of action

- Several hours each day, forcing sweat out of the body. This is used for several months, even years by switching off the kidneys and urinary track function, or have the system function at less than 1% of normal usage.

Objective

- Is to force sweating for young men, all serum package drug induced, however make it seem to the world countries and citizens, that the young men are into jacking off, masturbation, and that they are profusely sweating with high libido. This is to frame and attack men from 191 world countries, saying they sweat and need fluid management treatment, and must be drawn to other drugs, poisons to be murdered for combination kidneys, urinary track system, and heart transplant.

Purpose

- Set young men up for murder, and organ harvesting, including kidneys, urinary track system, and heart.

Camouflage. do'nt be deceived.

- They will say it is for sales of 'sweat shirts'. It is for fashion and fun of jacking off. Get immediate, instant, pleasure, joy, and gratification, by uncontrolled jacking off. You will die, and your organs extracted and used. Do not be deceived, and if you experience cold climate conditions in your country, you can use the shirt, call it sweater, against the intentionally named 'sweat shirt'.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 11 Description. Serum packages for attacking, targeting, destroying, and possibly terminating functioning societies, balanced societies, family life, family culture, by framing young men, or men, by using male incitational poisons, putting them against the other family members, forcing fragmented, isolated societies.

Serum package attacks the following organs

- The serum package acting on male reproductive organs prostrate, groin, testicles, and penis, to incite young men, or men, similar to the explanation given in the previous case studies.
- This is to attack young men, or men from across the world countries, incite them, and put them against their family members and force quarrels, disharmony, resulting in break up, shattering, fragmented, broken societies.

Serum package attacks the following brain regions

- Similar to the explanation for inciting male subjects given in previous case studies, several brain regions are used and attacked by the serum package.

Serum package estimated timeline of action

- Several hours each day, or specifically targeting the target subject according to their recorded schedule, for few hours in a day, to set him up against his family members. Could be the young man, or man set up against his family members, or against his wife, or against his children.

Objective

- A rouge old world order objective, to render 191 world countries, balanced societies, functioning societies, family culture, cultureless, lifeless, societyless, fragmented, shattered, and broken. This by destroying families living in harmony, and young couples to be broken up, separated, and used, women for labor/sex slavery, and men for murder and organ extraction.

Purpose

- A rouge old world order purpose, for achieving long term supply of slaves, for labor and sex, and supply of human organs including heart to receive subsequent lives.

Camouflage. do'nt be deceived.

- They will say life is instant, immediate, pleasure, joy, and gratification, by uncontrolled jacking off. What balanced life and family?
- You will die, and your organs extracted and used. Your country and society will die. Go for one great life, a full life, balanced, and with sustained happiness.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 12 Description. Serum packages for imposing LIFE CAGES on people, by altering their life events, and outcomes of life events. For example, 'Destroying a persons job interview'. These serum packages need knowledge of the event to be destroyed, its date, time, gathered by an imposed external cage on target.

Serum package attacks the following organs

- The serum package is to precisely time the poisons, counter molecules to act on any of the, or several physical organs, to make the target subject look like an unsuitable candidate, by forcing any of the say dozen different things to go wrong. The serum packages could act on physical organs, e.g., sweat glands to induce profuse sweating for the interview, could force shivering by attacking skeletal system, could attack his respiratory system, impairing his natural communication skill, induce choking during communication, induce increase in heart rate, etc.

Serum package attacks the following brain regions

- The serum package could act on a few or several brain regions, impairing the natural skill, ability, of the person, to precisely time the poisons, counter molecules to take action, to make the target subject marked as unsuitable candidate, and not get a job offer. The serum packages could act on one or more brain regions resulting in, e.g., memory blanking during the interview, loss of memory and struggle to answer simple questions, induce stammering while talking, induce choking while talking, for senior technical, executive or leadership position interviews, zone out, numb, induce distortion, switch off, attack with adhd counter molecules, to brain regions responsible for processing information, logical reasoning, analytical skill, mental ability, scholastic ability, and access long term memory for handling technical and leadership case studies discussions. Not to mention, the puncturing of the brain region connected with central nervous system, resulting in the target subject to be fully in a restless, on the edge, impulsive, unsettled, chaotic, or confused state, and losing the job offer.

Serum package estimated timeline of action

- Several hours in the day of the interview that must be destroyed.

Objective

- To destroy the prospect of right jobs for the right candidates. And allow incompetent losers to receive jobs. This will weaken the company and the country. Bias will weaken the company with wrong people hired.

Purpose

- To get wrong people in the right jobs, misaligning jobs and skill. Biased offering.

Camouflage. do'nt be deceived.

- They will not sell this. They have and are using this against citizens from across the world countries, to weaken companies and hence the 191 world countries.
- Also a rouge old world order divisive tactic to divide and induce biased interview outcomes, groupism oriented outcomes.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 13 Description. Serum packages for imposing LIFE CAGES on people, by altering their life events, and outcomes of life events. For example, 'Destroying a persons speech or talk on stage'. These serum packages need knowledge of the event to be destroyed, its date, time, gathered by an imposed external cage on target.

Serum package attacks the following organs

- The serum package is to precisely time the poisons, counter molecules to act on any of the, or several physical organs, to make the target subject look like a bad speaker, with poor oratory skills, has stage fear, and hence cannot be a public speaker. A skill required for Leadership roles, Senior management roles. The serum packages could act on physical organs, e.g., induce increase in heart rate, induce palpitations of the heart, sweat glands to induce profuse sweating, could force shivering by attacking skeletal system, specifically weaken the knees while on stage, could attack his respiratory system, impairing his natural communication skill, induce choking during communication, and bring about several variations in the mouth and thorasic cavity, etc.

Serum package attacks the following brain regions

- The serum package could act on a few or several brain regions, impairing the natural speaking and communication skills of the person, to precisely time the poisons, counter molecules to take action, to make the target subject marked as a bad speaker, with poor oratory skills, has stage fear, and hence cannot be a public speaker. The serum packages could act on one or more brain regions resulting in, e.g., memory blanking during the speech, loss of memory and struggle to get the information sequenced right, induce stammering while talking, induce choking while talking, zone out, numb, induce distortion, switch off, the brain regions responsible for memory, induce numb, semi awake, semi alert states to brain regions, causing the speech to be fully sedated, and not captivating. Not to mention, the puncturing of the brain region connected with central nervous system, resulting in the target subject to be fully in a restless, on the edge, impulsive, unsettled, chaotic, or confused state, totally destroying the stage talk event.

Serum package estimated timeline of action

- Several hours on the day of the speech, or stage talk, that must be destroyed.

Objective

- To destroy the prospect of getting into senior management or leadership roles. And allow incompetent losers to get these jobs. This will weaken the company and the country. Bias will weaken the company and country.

Purpose

- To get wrong people in the higher designation right jobs, hence misaligning jobs and skill. Biased offering.

Camouflage. do'nt be deceived.

- They will not sell this. They have and are using this against citizens from across the world countries, to weaken companies and hence the 191 world countries. Strong leaders were set aside in the rouge old world order.
- Also a rouge old world order divisive tactic to divide and induce biased selection/nomination for leadership roles, groupism oriented offers for leadership, senior management positions.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 14 Description. Serum packages for imposing LIFE CAGES on people, by altering their life events, and outcomes of life events. In the rouge old world order, usa, uk wanted to put people, families from across the world countries in 'Life cages' and alter their life events if required for decades, to exercise rouge control.

Serum package attacks the following organs

- Similar to the physical organs described in previous case studies, the serum packages are used to target, act on several physical organs, to attack people, if required continuously, repeatedly, multitude of times, through their life, manipulating the life events, if a full LIFE cage is imposed on the target subject, a target family, which is a combination of full external cage, knowing all their life daily activities, allowing them to design serum packages to attack and alter any life event of target person or anyone in target family. While all life events and their outcomes can be manipulated, few of the life event examples that could be manipulated, altered include,
- - serum packages to break up prospective alliances, attack marriages, break up couples, stealing women, break up business prospects, stealing businesses, stealing job opportunities, stealing business opportunities, stealing intellectual property, are all included in altering life events.
- - serum packages to continuously attack a target person framing him as weak, by physically weakening him, is controlling and altering life events for several months, years or a decade.

Serum package attacks the following brain regions

- Similar to the brain regions introduced in previous case studies, the serum packages are used to target attack several brain regions, multitude of times, if required continuously, manipulating and altering the life events.
- - serum packages to continuously induce thoughts of apprehension, or lack of confidence by attacking brain regions is also used for altering life events and their outcomes.
- - serum packages to continuously manipulate certain brain regions, to attack persons communication and oratory skills, could also be used to frame and alter life events of target subjects.

Serum package estimated timeline of action

- Several hours on the day, or previous day, to alter any target life event of the target subject, or the target family. This attack could be sustained repeat attack for years, or decades.

Objective

- The rouge old world order wanted to control people, families from across 191 world countries, all 9 billion people by imposing 'Life cages', using serum packages if possible at all of them, control, manipulate, alter, destroy, damage, keep targets where they want them to be, kill by serum package poison, murder by serum package counter molecule, use, abuse, impose all forms of slavery, have their way of psycho, devious, diabolical, exploitation of everyone in the world.

Purpose

- To impose exploitation on 9 billion citizens, and extortion on all 191 world countries. Control, and use them. Control IQ levels keeping targeted work force at the levels of intelligence they want, and use women for sex and labor slavery.

Camouflage. do'nt be deceived.

- They will not sell this. They want to execute this grand plan on 191 world countries, and 9 billion people. There was obvious resistance from all 191 world countries, their Governments, Leaders, who had to face the force of rouge imposed old world order levers. Macro Transformations authored by me will end their grand plan and will deliver 'World Independence Day' for all 191 world countries, and 9 billion citizens.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 15 Description. Serum packages acting on the brain regions, to temporarily diminish the IQ levels of people, citizens across the world. Reduce and target the productivity of people, citizens across the world, by continuous usage of serum packages on target subjects.

Serum package attacks the following organs

- Physical work activity 'Productivity metrics' could be targeted, attacked by using serum packages attacking physical organs. IQ and office job productivity are brain region dependent and hence the serum package action is on brain regions.

Serum package attacks the following brain regions

- The following are the resulting effects of the serum packages acting on several brain regions.
- - Reduce the IQ levels, a metric not accepted across the world, used in the rouge old world order by usa and uk. It is supposed to reduce all intelligence related abilities of the target subject, including information processing, analytical skill, aptitude, mental ability, scholastic ability, technical, business, and world knowledge information processing, academic excellence. All of these should be diminished for the target subject.
- - Reduction of productivity is a combination of using serum packages, overriding the natural daily schedule of the target subject by serum packages, by inducing higher number of hours of sleep in a block of 24 hours, and using adhd, attention deficit counter molecules in the awake work hours of the 24 hours, reducing the contribution and productivity of the target subject to a low 1% or 10% of his normal productivity.
- The combination of the above can only be temporarily inflicted on target subjects, unless the serum packages are repeatedly, continuously used on a target subject. This is achieved by targeting several brain regions, sedating brain regions, numbing, switching off brain regions, adhd counter molecules act on several brain regions inflicting severe distortion, strain on neurons, resulting in the brain, functioning only to 1% or 10% of its normal productivity levels.

Serum package estimated timeline of action

- Several hours on the day, to attack the target subject, whose IQ levels must be diminished, and productivity must be reduced.

Objective

- The rouge old world order wanted to impose 'Life cages' on 191 world countries, and 9 billion people, and force this diminish IQ and reduce productivity serum packages on the most intelligent and brilliant from across the world countries. Which is only second best to 'Killing the most intelligent and brilliant citizens', and retain the average, above average performers at much lower IQ levels, thus ensuring no genius intelligent would come and counter or question their rouge regime, and everyone are controlled in cages, kept in slavery working at pre-planned and imposed, forced lower IQ levels and productivity. This would translate to lower IQ level and lower productivity of the country, which was to be kept in slavery status for ever.

Purpose

- To force lower IQ levels and lower productivity on all 191 world countries, and keep them fully controlled and in slavery status.

Camouflage. do'nt be deceived.

They will not sell this. They want to execute this grand plan on 191 world countries, and 9 billion people, to lower their intelligence and keep them in slavery for ever. Macro Transformations authored by me have ended their grand plan and will deliver higher productivity, higher IQ levels, the natural ability of your citizens, taking your countries to your respective economic objectives.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 16 Description. Serum packages for weakening or inflicting slow damage on physical organs, while repeatedly used on a target subject. The counter molecules to slowly weaken the 'skeletal system, bones, and joints'. This is used to reduce life span of citizens of 191 world countries, and generate revenue in fake cure.

Serum package attacks the following organs

Serum packages are possessed and used by rouge old world order, to inflict temporary weakening of the skeletal system of men. This is something they incited, prompted on the world countries, world men, intentionally to draw men into skeletal strength, bone strength, physical strength battle, and all of it for experiments, to deliver bone strength to a psycho rouge old white trash who received a second life by murder, which will be fully banned in the New World Order. The skeletal system weakening could also be sustained, if they want to attack a specific target subject, resulting in reduced bone weight and reduce skeletal system and bone strength. Attacking skeletal system includes,

- attacking all bones or targeted specific bones in the skeletal system, with serum technology counter molecules, that could remove the outer layer of the bone, induce pores, minor holes into the bone, or/and vary the density levels of the bone.
- diminish and reduce the calcium and nutrition absorption ability of the skeletal system, or target set of bones. Blocking its nutrients absorption.
- weaken joints of the bones, forming the skeletal system, by using counter molecules that reduce the strength of the cartilage, tendons, and ligaments which form the composition of the joint.
- induce joint pains by reducing musculature surrounding the joints.
- they can induce disc slips at will, and can induce any kind of skeletal system, and bones disability.
- induce brittleness of bones, allowing them to easily fracture, or break.
- induce intense pain, strain, trauma, restricted joints movement or stretchability, for hours, causing discomfort and forcing postural strain, and postural discomfort to target subjects during night.
- control and alter the skeletal system movement, and constraint, alter walking postures of target subjects.
- induce severe pain, trauma at any joint, any bone, across the skeletal system, including severe pain in neck, spinal column, at will. Bone cancer, and Rheumatoid Arthritis are induced diseases to skeletal system.

Serum package attacks the following brain regions

- They can hyperactivate pain perceiving region of brain, to distinctly perceive higher amount of pain from entire skeletal system, bones, and joints.
- They can also induce specific bone movements, directly inflicted on the skeletal system, activated from a region responsible for voluntary action, by sending specific signals to it using counter molecules.
- These are only simple linear action, movements involving hands, legs, or/and spinal cord.

Serum package estimated timeline of action

- Several hours in a day, spanning all 24 hours. For causing sustained damage and weakening, regularly and repeatedly on the target subject.

Objective

- Conduct bone experiments and extract bones from men with strong genetics, to see if they are reusable. The experiments are for strength provision in the rouge old white trash second life received by murder.

Purpose

- Experimental results and data. They want to weaken skeletal systems, bones, joints of all world countries, all races, and stamp bone strength supremacy of caucasian trash of usa uk. This won't work.

Camouflage. do'nt be deceived.

- They will draw you into bone strength display, and might say we give supplements. You will lose your existing bone strength and fully weaken, and will die, if you take such bait.
- Take only the direct advice and supplements recommended by Medical council in the New World Order.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 17 Description. Serum packages for weakening or inflicting slow damage on physical organs, while repeatedly used on a target subject. The counter molecules to slowly weaken and induce 'Respiratory system problems'. This is used to induce problems to citizens of 191 world countries, and generate revenue in fake cure.

Serum package attacks the following organs

- Serum packages are possessed and used by rouge old world order, to inflict any of the following induced problems, resulting in restricted function, of the human respiratory system.
- - They can constrict the wind pipe diameter, to reduce the air flow into lungs. Alternately the same could be achieved by increasing the wind pipe wall thickness to restrict the airflow into lungs.
- - They can induce nasal blockages temporarily, or at preplanned times, causing nasal congestion reducing the airflow into lungs causing restricted breathing.
- - They can induce intermittent breathing seizures, causing abrupt pauses with no air in the respiratory system, a pause, a choke, a block, during talk.
- - They can completely restrict and constrict the lung breathing capacity.
- - They can induce abrupt increase in wall thickness of branches of wind pipe going into two lungs, severely reducing the capacity of lungs and hence the respiratory system.
- - They can create blockages in the air processing perforations within lungs, by closing them or creating moisture / water blockages, reducing lung capacity and respiratory system capacity to function at 50% or lower to its normal levels of function.

Serum package attacks the following brain regions

- Serum packages to induce buzzing in brain regions, which effect the brain region connected with speech, talk, also results in inducing pause, choke, blockages, while speaking. This is by invoking voluntary temporary seizures in speech triggered from brain region, which does not directly work or effect the physical respiratory system.

Serum package estimated timeline of action

- Several hours in a day, prior to the talk, or speech to be targeted, and usage of specific counter molecules during the speech, or talk.

Objective

- Force, impose, a false, fake inferiority complex, since they thought citizens would not know, on vast majority of world citizens, making them not to speak for their country. Retain the rouge old world order authority on them, forcing themselves and speaking for world countries, and taking decisions for them. This rouge objective is terminated by Macro Transformations authored by me.

Purpose

- Retain control in rouge old world order. Experimental results and data. Respiratory system management of the caucasean trash of usa uk in the illegitimate second life. This will be banned in New World Order.

Camouflage. do'nt be deceived.

- They will draw you into medication or supplement for what they will call an awkward pause, choke. Absolute waste. Do not take the bait. They will draw you into other problems for the kill.
- For all speakers, orators, do not stop, clear your throat, breath, and go along with your talk, speech. I have done this despite several attacks on my talks over last 14 years.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 18 Description. Serum packages for attacking the 'Oratory skill of target subjects', which include usage of a range of counter molecules. This is used to attack citizens of 191 world countries, and subdue, attack, target, diminish the oratory skills of people across the world.

Serum package attacks the following organs

Serum packages to attack target subjects 'Oratory skills' are wrapped with several counter molecules which can act in the following ways on the target subject, on his/her respiratory system, mouth and thoracic cavity system, vocal cords, and auditory system.

- I refer to the previous case study, where I describe different ways of attacking the 'respiratory system' to target a persons talk, speech, and hence oratory skill.
- Counter molecules to attack the mouth, and thoracic cavity, all of which will target a persons oratory skill include, working in the following ways.
- Induce dryness or intense dryness in the mouth and the entire thoracic cavity, using the 'severe dehydrating agent, counter molecule', or the absorbant, dryness counter molecule.
- The induced dryness causes the dry mouth, dry throat awkward pause noise, sound, made to believe the person has poor oratory skills. It is induced.
- Induce or generate spit, saliva in the mouth during the talk or speech. This created spit, saliva has two places to go, either spit out, or swallowed in. The orator has to swallow, hence creating a gulp.
- Induce or create water molecules, blaming water, juice, fluid consumed through the day prior to the talk. This is again, going to create a gulp for the orator during his/her speech.
- Induce swelling, increase wall thickness of mouth and thoracic cavity, altering the normal free unrestricted movement of tongue in the mouth.
- Induced extreme dryness, also effects the moisture levels of the tongue inside the mouth. The thickness of the tongue could also be varied, with reference to the mouth wall, and thoracic cavity, altering the speech flow by altering the tongue movement on the day of the speech.
- The auditory system function manipulation involves varying the hearing decibel levels, in what can also be explained as closing the ears, and reducing the sound heard or captured. This alters the decibel levels at which the orator speaks, he/she would be much louder, as perceived by the audience, which he/she is unaware of.
- The vocal cords function could be controlled and altered, varying the decibel levels of the speech delivered by the orator.
- The digestive system could also be used to induce precisely timed burp during the talk, speech, and another awkward method being forcing watery food particles of what you ate, from stomach into mouth, which you will have to swallow again, inducing a gulp during the speech.
- All the above can be triggered, used in various combinations, through the span of the talk, by an absolutely psycho creation of a serum package, on the orator, who will have a bad day, worse day of speech.

Serum package attacks the following brain regions

- Serum packages to induce buzzing in brain regions, which effect the brain region connected with speech, talk, also results in inducing pause, choke, blockages, while speaking. This is by invoking voluntary temporary seizures of respiratory system, during the speech, triggered from brain region, which does not directly work or effect the physical respiratory system.

Serum package estimated timeline of action

- Several hours in a day, prior to the talk, or speech to be targeted, and usage of specific counter molecules during the speech, or talk.

Objective

- Target, and attack the best orators from across the 191 world countries, forcing themselves to speak for these countries in the rouge old world order. This rouge objective is terminated by Macro Transformations authored by me.

Purpose

- Negative tactic used against the world citizens, so that caucasean trash of usa uk could claim they are the best orators.

Camouflage. do'nt be deceived.

- They will draw you into medication or supplement for oratory skill. Absolute waste. Do not take the bait. They will draw you into other problems for the kill. Without the serum package, you will speak naturally, the way you always, generally, regularly, daily speak.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 19 Description. Serum packages for weakening or inflicting slow damage on physical organs, drawing the target subject into medication. The possible attacks, or to stop the 'Heart' are presented here. They can stop the heart using serum package, and to your surprise also resuscitate, or restart it.

Serum package attacks the following organs

Serum packages to attack or target 'Heart' and their capability are presented here.

- The rouge old world order have several techniques to draw people into the forced, fake medication, by inducing a range of simple induced ailments to heart, which the target subject in the past was made to believe, this is what was acquired. These rouge illegitimate techniques include, rise in blood pressure, hypertension, lower blood pressure, hypotension, vary cholesterol levels, vary LDL, HDL numbers taking them higher or lower beyond the control limit chart set by the rouge usa uk. These are general ailments known to people as high blood pressure, low blood pressure, high cholesterol, or low cholesterol, all of which are inducible, and induced to millions of people.
- They can induce other ailments, problems, not known to citizens across the world, such as arrhythmia, palpitations, increased heart beat rate, reduce heart beat rate, induce or force heart valve problems, induce clots, clogs in any of the four blood flow, artery, vein, connections to heart, drawing subjects to bypass surgeries.
- They can induce heart wall thickness, strength, variations, induce sensation of heaviness in heart, induce acute pain in heart, and also induce micro heart attacks drawing the subject to medical consultation, hospitalization. They are fully capable of inducing a full heart attack, called as cardiac arrest, stop of heart, and inducing death to the target subject.
- Serum package capability unknown to 191 world countries, 9 billion people of the world, is their ability to check, test if a target persons heart is in good, mint condition which will restart with the paddle electric jolt, a confirmation test they want conducted even before the murder for heart harvesting, for old about to die rouge caucasian trash of usa uk recipient. The serum package to work for few hours, manipulating the heart, retaining few other organs in the state they need them to be, to induce a full stop, cardiac arrest, hold the target in that state for few seconds, or few minutes, and restart, resuscitate the heart, bringing it to its normal rhythm, and function. This serum package will mark the target indicating that he/she is in prime condition, and can be murdered for heart harvesting.

Serum package attacks the following brain regions

- Serum packages to attack heart do not use, or target brain regions.

Serum package estimated timeline of action

- Several hours on the day, depending on what negative effect is intended to be created on heart.

Objective

- With heart, it is a singular objective, to murder target subjects, young men, young women, in the ages of 20 to 30 most ideally, for some old rouge about to die psycho white trash of usa uk to receive a rouge second life by heart transplant.

Purpose

- worthless garbage trash of usa uk want to live for 500 years or 1000 years, by murdering people from across the world countries, by receiving subsequent lives. Inducing other ailments is to generate money and conduct illegal experiments.

Camouflage. do'nt be deceived.

- They will not sell this. A network to execute the plan was built across 191 world countries, to identify targets, kill them by camouflaging it like it is an accident, or result of a medical condition, and execute the organ export, and conduct the transplant.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 20 Description. Serum packages for weakening or inflicting slow damage on physical organs. The possible attack, or to terminate the 'Liver' are presented here. They consider this an easy to frame option, to draw, or directly frame young men without any truth, stating alcohol is the cause, and conduct the murder.

Serum package attacks the following organs

- Serum packages to attack or terminate 'Liver' are presented here.
- - Liver is supposed to be self healing, with no management or medical supplement requirement and is expected to function well beyond the 100 years of human life. The rouge old world order can use the rouge illegitimate techniques against target subject that include, inducing temporary disease or ailment to Liver, that they call as jaundice.
- - Further, they have the full capability serum packages to kill, or terminate the organ entirely, and within that can do it at a slow pace, rapid pace, or instantly.

Serum package attacks the following brain regions

- Serum packages to attack Liver do not use, or target brain regions.

Serum package estimated timeline of action

- Several hours on the day, depending on the planned attack, speed of attack to be created on liver. Must be sustained, if they are going for a slow pace termination of liver.

Objective

- With liver, it is a singular objective, to murder target subjects, young men, young women, in the ages of 20 to 30 most ideally, for some old rouge about to die psycho white trash of usa uk to receive a rouge second life by heart transplant. Easy to frame, and the organ failure means death are the reasons to attack liver. A teetotaler, or even people with negligible low frequency social drink consumer, however has one photo holding a drink, could be framed as reckless, out of control alcoholic, by creating fabricated fake dozens of photos, or even videos, to frame the young man, or women and go for the murder.

Purpose

- worthless garbage trash of usa uk want to live for 500 years or 1000 years, by murdering people from across the world countries, by receiving subsequent lives.

Camouflage. do'nt be deceived.

- They will not sell this. Young men, or young women, with one photo holding a drink, will be framed by rouge usa uk as reckless out of control alcoholic, with no truth attached, force frame the identified targets, and kill them.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 21 Description. Serum packages for inflicting instant death, by transmitting only poison to the target subject, the transmitter carrying both poison and antidote in their body. Any young subject could be drawn into kissing, and murdered by serum package carrying poison antidote in combination, and transmitting only the poison, to cause the murder.

Precondition to be understood by all the 191 world countries, and 9 billion people of the world.

Serum package potential must be understood, for this case study. Any subject could carry poison in their human body, while also carrying the antidote to negate the presence of the poison in their body. The serum package with both poison and antidote active in the human body, with the span of hours, days for the antidote action is higher than the span of hours the poison is present in the human body, the overall span ensuring the full dissolution and expulsion of the poison out of the system of the human body. Example, say a young women is hired by rouge usa uk to kill a young man, by dispensing this serum package, inviting him for a kiss, or sex, while the poison is in the mouth of the hired young women, meaning on the tongue, and in the saliva, the antidote in her blood, can transmit only the poison into the mouth of the young man, transmitting some saliva while kissing, resulting in the young mans death in subsequent hours, since the young man is not having the antidote running in his blood.

Serum package attacks the following organs

- This serum package is active in the oral thorasic cavity of the young women hired chosen transmitter, while the antidote protecting her life is released and active in her blood. STUN will have the technological capability to investigate this and take this to closure.

Serum package attacks the following brain regions

- This serum package might also be active in certain regions of the brain, to ensure antidote functions, to keep the hired young women alive.

Serum package estimated timeline of action

- The action of poison for few hours on the day of the bribe paid activity, with action of antidote spanning for hours before and hours after, the processing and disposal of the poison from her body.

Objective

- To hire young women, for paid bribes in rouge old world order, to commit a murder, without traceability in the present day, since most of the world countries today do not have the technological capability to investigate serum packages.

Purpose

- Get a target young man killed, to extract his blood, organs, and heart.

Camouflage. do'nt be deceived.

- They will say go out with a different women every day. You will die. Do not take the bait. Presence of technological capability to execute this is only with rouge usa uk rouge pharmaceutical companies such as johnson and johnson, with operations in over 180 countries. Their facilities, operations must be immediately shut down by 191 country Governments, Leaders.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 22 Description. Serum packages for attacking 'central nervous system, and neural connections'. The possible attacks include 'disconnecting neural connections', and causing partial, or full permanent damage to several organs including the sensory organs.

Serum package attacks the following organs

Serum packages to attack 'central nervous system' can cause permanent damage to target subject, select physical organs, their functions. Almost all the physical organs have neural connections, through the 'central nervous system', to various brain regions. Atleast for signal transmissions of pain, induced or otherwise. These neural connections to physical organs can be dissolved by rouge serum packages.

Serum packages to attack, disconnect neural connections, causing partial damage, or full damage, at chosen speed slow or immediate, or permanent disability can be induced for,

- The five sensory organs / functions of human being. While sensing the input signal, sensation generated, processing the signal by brain, and receive a response, is handled by the 'central nervous system', and neural connections, the functions of 'central nervous system' and neural connections are not limited to these five sensory organs / their functions. Rouge usa uk have serum packages to partially damage, or induce permanent damage to the five sensory organs, their functions, eyes, ears, nose, tongue, and skin. If unattacked, all these sensory organs, are expected to work well for the full 100 years or more, before when the human heart is expected to stop in the age of 90-99. The serum packages to cause eye discoloration, cause damage to pupils, rods, cones, cause partial blindness, or full blindness are fully available with rouge usa uk, rouge old world order. One of the ways to cause such a damage is by attacking the neural connections of these sensory organs through the 'central nervous system' to the brain regions for signal transmissions and receiving response.

- The usage of serum packages to use disconnection of neural connections, going through 'central nervous system', as one of the ways / methods to cause damage to the other four sensory organs ears, nose, tongue, and skin, are mutatis mutandis to the description given for eyes.

- Rouge usa uk have decided to burn the world countries, male, and female, in what is said to be the 'sildenafil citrate revenge'. They have deliberately intentionally created serum packages to disconnect the neural connections related to male sexual, and reproductive system, prostate, groin, testicles, penis, their functions. Their official number on record is over 20 million men sterilized. The illegal number is extremely high and across all world countries. This is their revenge for something that was not needed across the world countries, and what they needed.

- Serum packages are there to inflict similar neural connection disconnection for female sexual, and reproductive system, organs. In that it is said that usa uk have serum technology capability, poisons, counter molecules, to eliminate the occurrence of puberty in female, rouge trials that were attempted and have built the rouge capability.

Serum package attacks the following brain regions

- The communications of various organs with the brain are targeted like explained, causing slow damage, partial, or permanent damage, to the organs, their functions. These rouge serum packages were built from all the illegal experiments to manage these organs in their diabolical plan of getting second life by murder.

Serum package estimated timeline of action

- Several hours on the day, for immediate or permanent damage, sustained slow attack, for slow or partial damage.

Objective

- For conducting experiments, to manage sensory organs, their signal and response transmissions in their rouge second life received by heart transplant, by some old rouge psycho white trash of usa uk.

Purpose

- Worthless garbage trash of usa uk want to live for 500 years or 1000 years, by murdering people from across the world countries.

Camouflage. do'nt be deceived.

- They will not sell this.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 23 Description. Serum packages for attacking 'central nervous system, and brain regions'. The attack of rendering the brain region responsible for the 'human state of being centered, calm, relaxed, balanced', non functional by using serum package is presented here.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly, however, renders all physical organs, entire human body in absolutely unsettled, restless, unbalanced, non functional state.

Serum package attacks the following brain regions

- Among all the brain regions, there is one brain region 'that is responsible for human being to be in a functional state, a centered, balanced, and relaxed state, which ensures the human body and mind centering, by which the human being has full awareness, and voluntary control on all the human faculties, all human organs, is in a present, awake, aware, normal state. This region is one of the brain regions that is responsible for all human beings in the world, who take everything that comes with your normal life on a normal day in an undrugged state, for granted. This region controls everything that the human being is unaware or does not voluntarily try to control, the involuntary unknown action delivered to human life 24 by 365, keeping the person in centered and relaxed state. Hence the name of 'Rested and in control region', is approximately appropriate. The brain regions will be tagged with segments, definition, nomenclature, tags and codes. I am yet to publish the index of brain regions. The serum package to render any region non functional across the brain, for all regions is available. When this region is rendered non functional, by causing distortion of neurons in the region, by which they cannot perform their duties, work, the region ceases to perform its functions. The same could be achieved in varying intensities by using varying dosages of counter molecules that attack this region, puncture it, neutralize it. This results in varying percentages of 'restlessness, unsettled state of human body, human faculties not in any form of voluntary control, unbalanced, off the center, unable to stand, unable to sit, unable to sleep, unable to hold any one posture to rest or relax, and hence the abilities to read, write, process information, work, engage in any meaningful activity, go along with your days work, and life' would become impossible.

Serum package estimated timeline of action

- Several hours on the day, wherein the hours directly translate to unsettled human being with no voluntary control on human faculties, and in a state of torture, percentage of which could be adjusted, increased or decreased.

Objective

- For conducting experiments, and gathering information on brain and its region. Pentagon wanted this, to torture war prisoners and render them lifeless with unbearable torture. This serum package is step 1 of torture that could be inflicted on the citizens of the world.

Purpose

- Worthless garbage trash pentagon of usa uk want to torture all human beings on earth, keep them in slavery while they live for 500 years or 1000 years, with experimental data results.

Camouflage. do'nt be deceived.

- They will not sell this. You do not want to ever experience this.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 24 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. The attack on brain regions, 'Temporary daily memory access region', and 'Life memory access region' is presented here.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly.

Serum package attacks the following brain regions

Definition. The brain cage, is significant caging control exercised by the poisonous serum package, in an imposed 'internal cage', which along with external cage, forms 'life cage'. Pre condition. Understanding the following precondition is very relevant to thoroughly interpret this case study. Normal human being, his/her brain is built and expected to function very well, through his/her entire life, without any problems, including those related to memory. In the undrugged state the human beings brain will be in the present, comfortably able to execute all the work, daily activities, planned set of activities, all through his/her life, and will not have any questionable kind of memory loss, spanning the mid term or long term memory. This must be clearly understood by citizens of all 191 world countries.

All the serum package issues explained in this case study are poison, counter molecule induced, to conduct experiments for the any unknown, unanticipated brain function deterioration in the rouge psycho second life of caucasian white trash of usa uk, by heart harvesting and transplant.

- Temporary daily memory access region. This is a region in the brain which stores the persons daily, current, immediate, short term meaning next few days activities, planned work, errands to get done, work that must be finished on the day. This is generally upon the thinking, planning that is done on the day before, possibly few days before, or on the day. The serum package blanks this entire region and can hold the region in fully blank state for extended periods of time, ensuring the person fully forgets the activities, planned work, errands, or other work on the day, does some others set of activities, and finishes his/her day. This serum package includes inducing forgetfulness, of simple things in the present, as the memory region is blanked, resulting in the person leaving his/her keys, specs, data drives, bag, wallet, mobile, and leaving the location. And then running around through the day trying to locate them.

- Life memory access region. This is a region where the brain is able to retrieve and access the memory of the persons entire life. The serum packages have the capability to fully blank these regions also, and keep them in blank state for several days, while the serum package is acting for several days, or repeatedly continuously dispensed to the target. This causes the person to have difficulty remembering past events of his life, names of people from the past, dates, years of certain events, and also feels the sense of forgetting what he/she have studied through school, and college. This region could be segregated to mid term memory access region and long term memory access regions, respectively accessing stored mid term, and long term life memory. The serum package works in the exact same way on both memory regions.

Danger. The Life memory access region blanking when ended, if the serum package is not continuously attacking on the region, and is stopped, some of the events, names, dates, years, what you studied seems to come back to normalcy, and you are most likely able to access the memory which is still intact in the memory storage neurons. The sustained usage of serum package, attacking this region alone will create notebook characters. Otherwise, no human beings will ever become like that. The danger is much higher in the case of 'temporary daily memory access region blanking'. The blank mind, having not executed any of the planned daily activities, errands, work, feels horrible about what is happening to him/her, and gets into a panic state while still the region is blank. The misplacing of what you are carrying is extremely annoying and hours of your day and schedule are disrupted to get things back to normal. Life cage to forge, or steal your keys, and copy your data.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 24 continuation. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. The attack on brain regions, 'Temporary daily memory access region', and 'Life memory access region' is presented here.

Serum package estimated timeline of action

- Several hours on the day, spanning few days. The blanking must end, meaning they must withdraw the serum package action on the region, or the regions shall stay blanked forever, as long as the serum package is acting. STUN to record the counter molecules and ban them.

Objective

- For conducting experiments, and gathering information on brain and its region. These were experiments to support the rouge psycho second life of caucasean trash of usa uk which is illegal in New World Order.

Purpose

- Worthless garbage trash of usa uk want to murder young citizens from across 191 world countries, and live for 500 years or 1000 years, with experimental data results.

Camouflage. do'nt be deceived.

They will not sell this. If they say this is really happening to you, it is a lie. It is what is being done to you, not what is happening to you.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 25 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. The 'brain buzzing' is a racism triggered, forced poisoning, which will attack your brain functions and make you look pale and dead.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly. The counter molecule serum package attacking all the brain regions, entire brain is made to believe that it delivers negligible variations in the dermis and epidermis layers of skin, with the actual physical action involving the blood to drain from the face skin, moving away from the brain, causing the person to look like bloodless, pale, weak, and about to die. This temporary incited action is a death trap. Human skin color stays the same from birth to death.

Serum package attacks the following brain regions

Definition. Given in previous case study. Pre condition. Understanding the following precondition is very relevant to thoroughly interpret this case study. Normal human being, his/her brain is built and expected to function very well, through his/her entire life, without any problems. The normal human being will live full life, the one great life, with the skin color they are born with. Induced brain buzzing is a camouflage to attack several brain regions, attacking entire brain, deteriorating brain functions and damaging your life.

The rouge psycho usa uk, rouge old world order used dozens of 'divisive tactics' at world countries, and world citizens, for a hidden secret objective of murdering citizens of 191 world countries, by blaming the divided other side for attacks, while they commit all the murders, extract human organs, including heart, to live a rouge psycho second life. Every divisive tactic is directed towards this objective. There is not a method of dividing people across the world that they have not used in the last 250 years and through the rouge ad years. One of the most brutal divisive tactic used was to call the world white or black, when I have clearly declared that the world is a 'colored world', with 'colored people'. The racial divide of rouge old world order, to attack all world citizens as black when compared to albino caucasian white trash of usa uk, was to incite them, and draw them into rouge skin color lightening program, directed to murder citizens from across the world. All cosmetology initiatives, drives are also intended towards the same purpose.

The serum package they have sold inciting rouge old world order racism, is a continuous, constant, non stop, noise, chatter, buzzing sound of varying decibels causing mild to severe extreme unbearable high decibel noise which you want to stop, however cannot and evokes only death would stop the noise sensation. This noise is a cover up, a camouflage to attack all the brain regions, entire brain, deteriorate human life, damage the target persons life in several ways, and destroy the target subject. Given that they say it must be continuous, the target is continuously kept at low IQ, diminished brain functions, incompetent, useless, worthless, set to perform a preset menial job chosen for the subject. The buzzing serum package drains the blood in the human face, making it pale, bloodless, lifeless, and dead, and they say they have altered the skin color. This is a permanent LIFE CAGE you will be put in, and will never be let out. The simulated effect shortlived, seems like an induced disease to the subject, without which the person with the original colored skintone looks like a real human being, fit and healthy.

Danger of brain buzzing and inciting cosmetology. You will die. Your brain functions will diminish to lowest levels and you will become dumb, and useless for yourself, your family, your society, your country.

Serum package estimated timeline of action

- Several hours on the day, and said to be permanently required. Permanent death life cage. Eternal slavery, in which you have no control on yourself, and your life.

Objective

- For conducting experiments, and gathering information on brain and its region. These are divisive tactics to conduct murders and get rouge second lives.

Purpose

- Racial attacks to draw you into destroying your own life, and eventually murder you. Worthless garbage trash of usa uk want to murder young citizens from across 191 world countries, and live for 500 years or 1000 years, with experimental data results.

Camouflage. do'nt be deceived.

They will sell this to you, buzzing and cosmetology. If you take the bait, you will destroy your own life, and you will die, according to rouge old world order psycho objective.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 26 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. adhd segment counter molecules attack decreasing target subject reading, writing skill levels to 1% or 10% of his/her normal skill levels.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly.

Serum package attacks the following brain regions

Definition. Given in previous case study. Pre condition. Understanding the following precondition is very relevant to thoroughly interpret this case study. Normal human being, his/her brain is built and expected to function very well, through his/her entire life, without any problems. The undrugged brain of the person is performing at the best / optimal skill levels of the person. A serum package, counter molecules, can only deteriorate, reduce, diminish, destroy the skill levels of the target person. A fact to record is the counter molecule interferes with the normal signal transmissions between brain regions and neurons, and hence can only deteriorate brain functions and not improve them.

The following brain regions set a skill level for individual subjects, and the cumulated skill, talent of the human being.

- Reading comprehension region. The language(s) learnt by the human being.
- Writing, authoring region. The language(s) learnt to the human being.
- Analytical ability region.
- Aptitude, and mental ability region.
- Scholastic ability region.
- Information processing region. This sets the normal speed of processing information for the person, with relation to working, responding, reading, and writing. It must be steady paced.

While there are more brain regions setting the performance levels, skill levels of a person, the basic set of adhd counter molecules packaged in a serum package, can simply act on these brain regions, causing distortion, chatter chaos for neurons in the regions, numbing the regions, switching the regions off entirely, and attacking these regions with varying degrees of intensities, potency, and that across the timeline the serum package is designed to attack the target subject, hence resulting in high, or extreme reduction of normal skill levels, say e.g. over 90% reduction, work performance levels of the target subject. This means the target subject is only able to read, write, analyze, use his/her skills to work, which are now at a diminished 1% or 10% of his / her normal skill levels. Meaning, what the person generally finishes in one hour, the same person dispensed with the serum package will take at least 10 hours to finish the same amount of work.

Serum package estimated timeline of action

- Number of hours on the day, when the target subject skill(s) levels must be diminished, and destroyed to very low levels of his/her normal skill levels.

Objective

- Use against targeted subjects, targeted groups, incited by rouge usa uk and rouge old world order, to selectively destroy peoples academic results, achievement prospects, career prospects, and lives, in any competitive setting across the world countries, through the life of any target subject. This is the worst attack on the best, top scoring, high achieving, brilliant students, in schools, colleges, and also career, and promotion time targeting in professional job/work.

Purpose

- Diminish, destroy talent from the earliest possible age, from across the 191 world countries, hence diminishing the prospects of the 191 countries, keep them at low IQ levels, and not allow them to achieve economic growth and create wealth for their country.

Camouflage. do'nt be deceived. They will sell this to you, saying it will help the target subject to improve the skill level, and performance levels. It is good for the brain. An absolute lie, and a trap to attack your best students, best performers at work, hence attacking your country prospects. The fact is there is NO SERUM PACKAGE TO IMPROVE BRAIN FUNCTIONS, BRAIN PERFORMANCE. The serum package can only diminish destroy attack and lower the skill levels, work performance levels of the target subjects.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 27 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. adhd segment counter molecules attack on the target, resulting in the target subject fully non functional, zoned out for a day or few days.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly.

Serum package attacks the following brain regions

- Definition. Given in previous case study. Pre condition. Given in previous case study. Introduced in previous case study, the following brain regions set a skill level for individual subjects, and the cumulated skill, talent of the human being. Reading comprehension region, Writing, authoring region, Analytical ability region, Aptitude, and mental ability region, Scholastic ability region, and Information processing region.
- A serum package with adhd counter molecules, are designed to attack these brain regions, in which the serum package causes these brain regions to be fully switched off, resulting in the target person zoning out for an entire day or even few days. The few days zoning out attack could be by using a subsequent day serum package, or a single package if the schedule of the target person is known for the few days. The term zoning out implies that the person would be unable to work, with zero productivity for the days. They can attack target people or groups of people with this serum package to ensure no work is done or attack in the competitive setting, by using this negative tactic. The targeted person will be unable to comprehend what is happening with him/her, the near brain disability unable to work, and would suffer through the horrible experience.

Serum package estimated timeline of action

- Number of hours on the day, or/and subsequent days when the target subject must be zoned out with zero productivity.

Objective

- Rouge usa uk, and the rouge old world order wanted to use this against the citizens of the 191 world countries, 9 billion people, by deliberately inciting them to fight and use such negative tactics in any competitive setting. This objective and the entire usage of serum technology will be terminated in the New World Order.

Purpose

- Attacking talent and rendering them useless, from across the 191 world countries, means attacking the prospects of the 191 countries.

Camouflage. do'nt be deceived.

- They will not sell this. However attempt to use divisive tactics to attack each other by inciting citizens across 191 world countries. The fact is there is NO SERUM PACKAGE TO IMPROVE BRAIN FUNCTIONS, BRAIN PERFORMANCE. The serum package can only diminish destroy attack and lower the skill levels, work performance levels of the target subjects.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity. Case Study 28 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. Serum package to generate physical temperature heat and burn the brain neurons, is presented here.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly. The serum package poisons, counter molecules to vary the human body temperature are presented in a case study in this document. The rouge usa uk have the serum technology ability to increase the temperature of only the human skin, dermis, epidermis, to higher temperatures as compared to the rest of the human body. This causes the sensation of excessive heat, higher temperature perceived when the target subject touches an object in the surrounding area, or room. These rouge counter molecules can also be used to attack brain regions, and neurons.

Serum package attacks the following brain regions

- Definition of brain cage, given in previous case study. Pre condition about brain, given in previous case study.
- The same higher temperature increase, can be delivered by rouge serum packages to the brain, brain regions, meaning neurons in the brain. The temperature heat delivered to the brain is high to the extent that it causes burning sensation, with many neurons burnt and damaged, dead with the excessive temperature delivered.
- The increase in temperature to the brain, brain regions, is perceived as intense noise, buzzing, pain, and torture in most of the brain, brain regions, however the literal burn in fire sensation is perceived by the top most layers of brain closest to the human skull right below the human scalp, skin on top of the head. The dermis, and epidermis skin cells in the scalp, perceive this high excessive temperature heat, and the sensation is beyond burning. The temperature increase can be delivered specifically to a region, to an organ, and in this case, results in burning, and several neurons dead. This is permanent damage to some of the brain regions. These counter molecules like all the others along with serum technology will be banned in the New World Order.

Serum package estimated timeline of action

- Number of hours on the day, to attack the target subject. With the burning heat, burning neurons, it was used for few hours in a day.

Objective

- Rouge experiments, to manage brain in rouge second life. Rouge usa uk using this as a torture mechanism on citizens of world countries, and captives.

Purpose

- Attacking target subjects along with inflicting torture of burning neurons in the brain.

Camouflage. do'nt be deceived.

- They will try to sell this, saying it helps the brain. An absolute nonsense, and a lie. It is used to torture target subjects and inflict permanent damage on neurons, brain, and brain regions.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 29 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. Serum package to control and vary the speed of target subject activities, daily chores, within certain tolerance limits.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly.

Serum package attacks the following brain regions

Definition of brain cage, given in previous case study. Pre condition about brain, given in previous case study.

After observing target subject for few months, they can create and use speed adjusting serum packages, attacking persons activities, daily chores, the speed of which must be varied, or adjusted, within certain tolerance limits, e.g., time spent on daily activities like, brushing teeth, taking shower, etc. They can also exercise this variation in target subject speed of talk, speed of walk, within certain tolerance limits.

The brain regions that are attacked or targeted by the serum package include

- Information processing region.

- With reference to the 'Information processing region', few other regions, those will be induced varying levels of sedation, numbing which will slow down the target subject. Otherwise, will retain the normal speed, or referentially increase the speed of activity.

Varying time passage, movement of time, is a function perceived by the target subject which is directly related to the state of stillness, undrugged state original state of 'Information processing region'. In the absolutely drug free state of this brain region, there is certain stillness of time perceived by the target subject, wherein the time is perceived as real time. Amount of work done by the subject in this state is much higher. stillness state makes you feel there is more time, time is moving slower, and you finished your activity much sooner. If slight amount of distortion, or sedation, or numbness induced, the time seems like it will move faster perceived by the target subject, wherein the amount of work done in this state is lesser in the same amount of time, and gives you the sense of lack of time, and that time has moved faster. This is about the perception variations about real time, that could be induced to target subject.

With the captured data of observation for few months, by holding the 'Information processing region' in still state, undrugged state, for select few other regions, when induced sedation, numbing, will reduce the speed, slow down the target subject in finishing the targeted activity. By holding the 'Information processing region' in still state, and also holding the select few other regions also in still state, the person finishes the activity in normal time, complementary and faster in relation to the previous state explained. By varying the state of 'Information processing region', eliminating its stillness, and inducing various states of sedation, or numbness, or distortion, to the target subject, with the combination variations of other few brain regions, you can further vary the speed of the targeted subjects targeted activity.

Targeting specific activity need precise schedule details, otherwise, general targeting, general attack, could be general timeline oriented, say work schedule, office hours in a country targeting, by the rouge serum packages. The captured data from one person is extrapolatable to world citizens.

Serum package estimated timeline of action

- Specific set of hours on the day, dispensed prior to the target activity.

Objective

- Rouge experiments, in rouge attempts to control peoples lives across the 191 world countries, and impose life cage, life slavery, on 9 billion citizens.

Purpose

- Impose life cages, control and manipulate the lives of 9 billion citizens across 191 countries, to the finest, minutest detail. Macro Transformations authored by me terminate these rouge objectives and purposes.

Camouflage. do'nt be deceived.

They will try to sell this, saying it will help. An absolute nonsense, and a lie. It is used to control and manipulate peoples lives and will be banned in New world Order.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 30 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. Serum package to hyper, or hypo activate the brain regions perceiving input from five human sensory organs, systems.

Serum package attacks the following organs

- This Serum package does not attack physical organs directly. However, serum packages can target, attack the physical sensory organs to deliver hyper or hypo perceptions to the target subject brain regions.

Serum package attacks the following brain regions

Definition of brain cage, given in previous case study. Pre condition about brain, like described in previous case studies, human brain, in the normal state, fully undrugged state, is absolutely capable of processing all the sensory input signals, and provide optimal, right, accurate, response, fully inline with the human beings natural state of life, culture, society, and synchronized with his/her natural original personality, its perceptions and responses according to the nature of the human being. These responses are in alignment with societal and local country culture, and conditions. There are serum packages built to target and attack all the brain regions including the perception and processing regions of the five senses listed.

The five brain regions that are responsible for receiving sensory input from the five human sensory organs, systems are

- Optic vision processing region.
- Auditory sound processing region.
- Nasal smell processing region.
- Oral taste processing region.
- Physical contact touch processing region.

The serum package can hyperactivate the brain region, trying to accentuate or increase the perception of the input signal from the sensory system(s), hypoactivate the brain region, to diminish, or reduce the perception of the input signal from the sensory system(s), numb the brain region, with no perception of the input signal from the sensory system(s), distort the brain region, totally resulting in chaotic state of brain, not perceiving the signal from the sensory system(s), all of which, at the same time, are combined with delivering a chosen pleasant or horrible perception experience signal to the 'Information processing region' of the target subject.

The serum packages variations are destroying the normal centered balanced optimal perception, processing, and response of the brain, to the input from the sensory organs, and hence trying to negatively influence, or alter the persons likes, dislikes, choice, life decisions, and hence manipulate the human beings life, attempt to alter the personality of the target subject in this imposed life cage. The serum packages intended to alter the target subject personality, the alteration intended to benefit rouge usa uk in the rouge old world order, economically or otherwise.

Serum package estimated timeline of action

- Several hours on the day, or several days trying to override the natural perceptions, responses of the target subject, and alter the personality of the target subject.

Objective

- Rouge experiments, to alter the personality of target subject, to make him/her like, dislike, make choices, make life decisions according to how they want to tune the target subjects personality, to selectively use the 9 billion people across the 191 world countries, in life cage, that was going to become planet cage. Their rouge fake kol fabricate 'split personality' disorder to force sell this.

Purpose

- Make the 9 billion people from across 191 countries, like, rouge usa uk products, listen to usa uk music, watch usa uk movies, in the rouge psycho devious diabolical plan of rouge usa uk, and the rouge old world order.

Camouflage. do'nt be deceived.

They will not sell this, they were forcing this on 9 billion citizens from 191 countries. These rouge psycho attempts terminated in New World Order.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 31 Description. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. Serum package for inducing emotional variations, manipulation, synchronized, with hyperactivated tear glands, hence framing weakness.

Serum package attacks the following organs

- This Serum package acts on and hyperactivates tear glands, to deliver combined heightened emotional experience of sorrow, the differential to normal induced by serum package, not known to the target subject, delivered to the target subject, and which could be used to frame the target subject.

Serum package attacks the following brain regions

- Definition of brain cage, given in previous case study. Pre condition of the brain, to be clearly understood, for thoroughly understanding this case study.
- Similar to the 'Rested and in control region' introduced in one of the previous case studies, there is a brain region 'Emotional Stability region', the function of which in normal state, fully undrugged state, is to process any emotional input received by the human being through a life event, or a societal or cultural event, or even a simpler regular event, could be an emotional input signal from one of the sensory systems, and upon processing, provide the response, fully inline with the human beings natural state of life, and synchronized with his/her natural original personality, its perceptions and responses to emotional input, according to the nature of the human being. This is an involuntary function region, that defines the 'Emotional perception and its response state' for the human being, hence the response of this region are the responses of the human being. It must be understood that human being responses to emotional input through a life event, or a societal or cultural event, or even a simpler regular event, do not vary significantly from person to person, and are generally within the same general range of responses consistent by say country, within country by gender, and adults, segregated by religion. There is a deliberate attempt of rouge usa uk and the rouge old world order to state that some people are highly emotional, or have extreme emotional responses and they have defined a fabricated nonsense called 'Emotional intelligence', to target frame and attack target subjects. This is absolute nonsense and is used to attack the citizens from across 191 world countries. Further, they are simulating these on target subjects by using serum packages, by forcefully accentuating, and magnifying the normal emotional state of a person to be totally out of control, beyond control limits, out of bounds, extreme emotional variations. And also target or draw such a person into the fabricated fake neuroscience trash line of medical science, created to murder citizens from across the world countries.
- Example of life events could be birth, naming ceremony, marriage, or death. Societal or cultural events are local country family get togethers, meetings and celebrating festivals, other social events or anniversaries. Simpler regular events, could be reunions, meeting people after years, or couple, husband, wife interactions, conversations regularly. In this case study, I only discuss sorrow and joy, as the emotion examples. They could also be classified into sad grievance set of emotions, and happiness pleasure set of emotions. The normal undrugged state emotional response of the human being given by 'Emotional Stability region' that defines and gives 'Emotional perception and its response', is the true original response of the human being, which will inturn send signals to a few other brain regions in case of sorrow, sad grievance set of emotions, generating the natural emotional response to the emotional input received, or, will inturn send signals to another set of few other brain regions in case of joy, happiness pleasure set of emotions, generating the natural emotional response to the emotional input received. Hence expressing the moments of sorrow, or joy, the right, correct, natural, original way. End of precondition description.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 31 continuation. Serum packages for attacking the 'brain regions', manipulating, diminishing, destroying, and controlling their functions, hence imposing 'brain cage' on the target human being. Serum package for inducing emotional variations, manipulation, synchronized, with hyperactivated tear glands, hence framing weakness.

- Inducing emotional variations, accentuating magnifying them, or even numbing them by serum packages is a very broad subject, which is beyond the scope of this case study, one slide. Hence, for introduction of the subject, I choose the following case study, to explain the serum package action on the target subject. The serum package to attack a target subject to frame the person as 'emotionally weak', and that this person has out of control, out of bounds, intense, extreme emotions, will first puncture, switch off, induce distortion, and result in the non functional state of Emotional Stability region. Once this region is destabilized, the serum package takes over and delivers heightened state of emotion expressed by the target subject, which is totally out of normal from the natural response of the target subject. The sorrow emotional response could be for extended periods of time, directly accessing the few other brain regions, and forcing the person to cry inconsolably while hyperactivating the tear glands to roll out tears excessively and inconsolably. This serum package is to frame the target person as weak, maybe to seize, claim guardianship of the target subjects wealth, WHICH IS ILLEGAL AND FRAUDULENT. Similarly, joy emotional response could also be made to seem out of control, and extreme, by directly accessing the another set of few other brain regions, and forcing the person to seem to be in an abnormal state of joy, to frame the target person as out of control crazy, definitions in rouge old world order, maybe to seize, claim guardianship of the target subjects wealth, WHICH IS ILLEGAL AND FRAUDULENT. India Judiciary, and legal systems all over the world, will not take or consider such serum package induced framing as evidence and will rubbish such illegitimate claims.
- - Destabilize 'Emotional Stability region', to make it partially functional or fully non functional.
- - Destabilize 'Information processing region'. Hyperactivate tear glands.
- - Trigger brain signal to induce the action of crying, or simply accentuate and magnify it, by a percentage differential when compared to normal natural response of the person.
- - Trigger brain signal to induce the action of laughing, a fake laugh face, and induce laughter for some time, or extended time.

Serum package estimated timeline of action

- Several hours on the day, or several days to frame the target subject, as person with extreme, out of control emotional variations.

Objective

- To frame citizens across 191 world countries, 9 billion people, negatively, by framing them with extreme, out of control emotional variations, framing lack of emotional stability, and steal their wealth. All the billionaires of the world were potential targets for such attacks from rouge usa uk in the rouge old world order.

Purpose

- Make the 9 billion people from across 191 countries, emotionally unstable, and steal their wealth by guardianship claim, or draw them into rouge fabricated medical practise of rouge usa uk neurosciences.

Camouflage. do'nt be deceived.

- They will not sell this, they were forcing this on 9 billion citizens from 191 countries. To frame people and for psycho experimental results.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 32 Description. Serum packages 'brain cage case studies' resulting 'Life cage case studies', manipulating meetings of people, at home or office, by all subjects dispensed with serum packages. Serum packages dispensed to people talking at home, to make them yell and fight with each other, causing fights, disputes, disharmony and isolation.

Serum package attacks the following organs

- This Serum package does not attack any physical organs directly.

Serum package attacks the following brain regions

- Definition of Life cage case studies. The brain cage case studies introduced in previous slides, attack, control, alter, and manipulate brain functions of the target subject. A Life cage is a combination of external and internal cages, within which internal cage includes 'brain cage'. The life cage is intended to fully control, and alter the life events of any target subject, or group of target subjects. A life cage could be imposed on only one person, by imposing external and internal cages on the target subjects life 24 by 365. The diabolical plans of imposing Life cage includes imposing 'brain cages' on more than one person that are target subjects, who are expected to meet in a group. There are several negative psycho rouge applications of 'Life cages' applied on multiple target subjects, for inciting married couples, families, at gettogethers or gatherings, at offices in meetings, and hence the usage of serum packages to impose life cages, applied on multiple target subjects, by imposing multitude of brain cages, are only introduced here.
- Some example case studies include, intentionally incited fights, quarrels between husband, wife, directing them towards divorce. To kill the male for organ harvesting, use the female for sex and labor slavery. The same could be used for inciting fights between any family members or all family members. This could be for stealing wealth, dividing and destroying the family members, framing one target person negatively, or for attempting to steal target subjects property by attempting to use guardianship, which is legally impossible, since imposing Life cage itself is illegal, breaking so many law sections in all the 191 world countries. After observing the target couple, or target family for few months, knowing the general times of their meeting, talking, having lunch, or dinner, the rouge usa uk of the rouge old world order would dispense serum packages to two or more people in the meeting, to incite fights, quarrels, and disintegrate them, for the planned psycho objectives.
- The serum packages to attack multiple target subjects at a time, are intended or directed towards, any of the following rouge psycho objectives.
- - Framing a target person, as having issues of anger, rage, shouting, yelling, used in the rouge old world order to frame any target subject.
- - Divisive tactics to initiate, incite, apply serum packages for a sustained period of time, to impose continuous fights, quarrels, to sooner or later force divorce on married couple.
- - Divisive tactics to initiate, incite, apply serum packages for a sustained period of time, to impose continuous fights, quarrels, to force divide and disintegration of an entire family.
- - The higher dosage insanity, for forcing devious, diabolical, psycho, dangerous outcomes including intense extreme fights, further the serum package forcing domestic violence, and resulting in murders of one or more people, in the targeted group. These psycho, diabolical, devious, rouge serum packages are primarily for stealing wealth, stealing businesses, stealing intellectual property, framing a person and stealing wealth, kill the target subject, or get the target subject to kill a bunch of people and get him sentenced to death. All of these are rouge psycho applications of using these dangerous serum packages to attack multiple target subjects at a time, to achieve rouge psycho objectives of rouge usa uk rouge old world order, to impose life cages on people, families, and steal everything possible from them, and get some or all of them killed, murdered.
- The stabilizing and involuntary brain regions, connected with the central nervous system, that keep the human being in rested, relaxed, calm, and in control state, in emotionally stable state, with sanity implied, meaning in a peaceful and sane state, with full presence of mind resulting in normal, original information processing ability, must all be punctured, switched off, numbed, or rendered partially functioning, in order to force the life cage on the target group of people, by applying brain cages on multiple target subjects at a time.
- The serum package will apply these counter molecules to keep these brain regions neutralized to the extent required, for the full time when this rouge life cage is applied. The regions are,
- - Rested and in control region, must be switched off, or neutralized with reduced function.
- - Emotional Stability region, must be switched off, or neutralized with reduced function.
- - Information processing region, must be neutralized with reduced function.
- - Sanity region, must be switched off, for generating insane thoughts and actions.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 32 continuation. Serum packages 'brain cage case studies' resulting 'Life cage case studies', manipulating meetings of people, at home or office, by all subjects dispensed with serum packages. Serum packages dispensed to people talking at home, to make them yell and fight with each other, causing fights, disputes, disharmony and isolation.

- With the above counter molecules in the serum package, taking control of those respective brain regions,
 - - rage is induced by counter molecules that induces rage. Depending on dosage and potency, any degree of rage, or extreme rage.
 - - anger is induced by counter molecules that induces anger. Depending on dosage and potency, any degree of anger, or extreme anger.
 - - insanity is activated with Sanity region switched off, a prerequisite, this when combined with other dangerous counter molecules for inducing destructive thoughts, rage, anger, can result if the serum package intended, in insane actions, including murder.
 - - destructive thoughts are induced by counter molecules, which are generally induced in combination with traces of rage, anger, and insanity, to force destructive action from the induced destructive thoughts.
 - - yelling is induced rage and anger by using counter molecules, while hyperactivating the vocal cords, resulting in loud yelling.
 - - rant is induced rage, anger, and insanity by using counter molecules, while hyperactivating the vocal cords, resulting in ranting.
 - - shouting is induced anger, and hyperactivating the vocal cords, resulting in shouting.
 - - domestic violence is induced by using higher dosage dangerous serum packages forced on people resulting in serious dangerous fights, causing and resulting in domestic violence.
- With all the information provided above, serum packages are designed and dispensed to people talking at home, to make them yell and fight with each other, causing fights, disputes, disharmony and isolation, which can further go on to achieve any of the rouge psycho objectives listed. Planting an element of doubt, continuously looping the doubt in the target subject, or the person that is a family member to the target subject, in whom you must seed, raise, cultivate, and fuel the doubt, meaning continuously loop the thought of doubt, like a splinter in the head, in the brain cage which would not leave, is another rouge method, which the rouge usa uk rouge old world order used against all the 191 world countries, their citizens, their country married couples, their families, resulting and forcing fights, disputes, disharmony, isolation, disintegration, and breakup.

Serum package estimated timeline of action

- Several hours on the day, when the Life cage, must be imposed on the target group of people, with brain cages acting on multiple people at the same time.

Objective

- To impose LIFE CAGES on families across the 191 world countries, attack the lives of 9 billion people, control, manipulate, alter their life event outcomes, and exercise rouge psycho old world order authority on all families across the world. Allows the rouge old world order to destroy marriages, destroy families, steal everything they have, and commit murders at will, without traceability.

Purpose

- Impose slavery, all forms of slavery, chain and cage the 9 billion people from across 191 countries, into LIFE CAGES.

Camouflage. do'nt be deceived.

- They will not sell this, they were forcing this on 9 billion citizens from 191 countries, for all the psycho devious diabolical objectives listed. Destructive thoughts, for deception are induced coinciding with an increase in physical strength of the target subject e.g., male, by inducing dosages of testosterone, adrenaline, increase in musculature, and energy levels, causing a diversion of thought for the target subject that boost in physicality is causing the destructive thoughts. This is a diversion, and false. While, none of these counter molecules, even if called molecules are approved, and must be banned, destructive thoughts are induced in combination with rage, anger, and insanity, to force destructive action from the induced destructive thoughts.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.
Case Study 33 Description. Serum packages 'brain cage case studies' resulting 'Life cage case studies', manipulating meetings of people, at home or office, by all subjects dispensed with serum packages. Serum packages dispensed to people at office meetings, to induce rage, anger, destructive and insanity thoughts, setting up a target subject.

Serum package attacks the following organs

Serum package attacks the following brain regions

- With reference to the details introduced in previous case study, and all the information provided, serum packages are designed and dispensed to people at office meetings, forcing brain cages on multiple people at a time, to induce rage, anger, destructive and insanity thoughts, setting up a target subject. Rouge usa uk, in rouge old world order, used several divisive tactics, in companies, and corporations with the gangs of caucasian white trash discussing and openly ganging up and using all negative tactics on the target subjects, who are the minorities in their countries, to be used, abused, and murdered. With psycho objectives, in this case orders coming from the gangs running the facility, serum packages are dispensed in the company served food, bought in office cafeteria setting up target subjects in business, official, formal meetings, or presentations. These gangs have used this rouge technology to set up the target subject inducing rage, anger, destructive and insanity thoughts, with continuous attacks, and harassment during times of promotions and increments, combined with the serum package to trigger the target subject in a meeting, to loose his cool and fall pray to the induced rage, anger, insanity, and most likely get fired, and tagged as psycho, angry employee, wherein the stamped tag will never leave you until your death, as entire rouge usa uk caucasian white trash work as a unit, and continue to attack the tagged subject until death. This is the use of this rouge serum package in office, corporate setting.

Serum package estimated timeline of action

- Several hours on the day, when the life cage and brain cages must be imposed, on the target subject, or target group of people, the meeting that must be controlled and executed with serum packages.

Objective

- To impose LIFE CAGES on businesses and companies across the 191 world countries, attack the workforce, control, manipulate, alter, target, destroy their work life, and exercise rouge psycho old world order authority on all businesses and companies across the world. Allows the rouge old world order to destroy businesses, destroy companies, steal everything they have, and attack or commit murders at will, without traceability.

Purpose

- Impose slavery, all forms of slavery, chain and cage the workforce at businesses, companies, and corporations from across 191 countries, into LIFE CAGES.

Camouflage. do'nt be deceived.

- They will not sell this, they were using and forcing this at the workforce of 191 countries.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 34 Description. Serum packages 'brain cage case studies' resulting 'Life cage case studies', manipulating meetings of people, at home or office, by all subjects dispensed with serum packages. Serum packages dispensed to target subject that is driving vehicle, insanity thoughts induced to stop and break the bones, skulls of people, and kill people.

Serum package attacks the following organs

Serum package attacks the following brain regions

- With reference to the details introduced in previous case study, and all the information provided, serum packages are designed and dispensed to target subject that is driving vehicle, inducing insanity thoughts to stop and break the bones, skulls of people, and kill people. The preparatory work in this is to observe the target subject, his route of drive, timing of his drive, to plan the timing of serum package dispensation and its action. The rouge usa uk in rouge old world order, to source human organs and hearts to get a second life, conducted a range of experiments on causing accidents to young drivers, driving vehicles, inducing, simulating the accident with serum package induced poisons, counter molecules, have their team members be part of simulating the accident, the accident resulting in arrival of ambulance, taking the subject to hospital, where the target subject would be pronounced dead. The one organ that would be intact through the accident is the heart, which they were after. The experiments included tests of the target subjects sharpness, reflex actions, split second decisions, and driving skills. Using motor skills as a method to frame and attack people was also used to mark and use the target subject. The serum package experiments on vehicle driving target subjects include, putting him/her to sleep while driving for few seconds to a minute, reduced functioning of 'Information processing region', and gathering data on how could they create an accident resulting in death with no traceability. Serum packages to frame the target subject for 'road rage', anger, ranting, shouting, yelling, or fighting, and drawing him/her to fabricated medical line of neuroscience, to eventually kill him/her, is an alternate approach. Serum packages for inducing insanity thoughts to stop and break the bones, skulls of people, and kill people, are available and are used. They have used this at young target subject drivers across the 191 world countries.

Serum package estimated timeline of action

- Several hours on the day, coinciding with the time when the target subject is driving the vehicle.

Objective

- To impose LIFE CAGES on target subjects, young target subjects, from across the 191 world countries, control, manipulate, when they are driving their vehicle, to induce an accident, and possibly commit murders at will, without traceability. Death must be made to seem like an accident.

Purpose

- Induce death on young drivers from across 191 countries, for organ, heart harvesting.

Camouflage. do'nt be deceived.

- They will not sell this, they were using this at young drivers from across 191 countries, for all the psycho devious diabolical rouge objective of receiving second life.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 35 Description. Serum packages 'brain cage case studies' resulting 'Life cage case studies', manipulating meetings of people, at home or office, by all subjects dispensed with serum packages. Serum packages dispensed to people inducing destructive thoughts to break the bones and kill people during meetings.

Serum package attacks the following organs

Serum package attacks the following brain regions

- With reference to the details introduced in previous case study, and all the information provided, serum packages are designed and dispensed to people inducing destructive thoughts to break the bones, and kill people, during meetings. Rouge usa uk in rouge old world order, to deliver grave consequences on the target subject, could even induce a dangerous high potency serum packages to get the attacked, and harassed target subject to attack people in the official meetings physically, break their bones, and in the worse case land up committing murder, by killing a colleague, another target subject, in the meeting. The murdered is dead, the murderer will face the judicial orders and will likely receive death penalty. Two people killed with no traceability in the rouge old world order.

Serum package estimated timeline of action

- Several hours on the day, spanning the scheduled meeting time, when the Life cage must be imposed on the target subject, or target group of people.

Objective

- To impose LIFE CAGES on businesses and companies across the 191 world countries, attack the workforce, control, manipulate, alter, target, and destroy their work life, and exercise rouge psycho old world order authority on all businesses and companies across the world. Deliver grave consequences on the target subjects, and attack or commit murders at will, without traceability.

Purpose

- Deliver grave consequences, to get someone killed, and to get the murderer punished according to judicial orders, which could be death penalty.

Camouflage. do'nt be deceived.

- They will not sell this, they were using and forcing this at the workforce of 191 countries.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Rouge psycho 'serum package technology' case study, to target, attack, destroy, or/and murder humanity.

Case Study 36 Description. Synchronized attack with serum packages imposing internal cage including brain cage, which is known to the surrounding 6 sides external cage imposing rouges, so thoroughly coordinated to impose an absolutely high intensity, extreme pain, psycho, torture inducing life cage, which is your room or house.

Precondition to be understood by all the 191 world countries, and 9 billion people of the world. For case study, Synchronized attacks, with the external and internal serum package cages, to form the LIFE CAGE.

Prior to Nixon technology, prior to multimode video capturing devices on all six sides of your room, house, prior to serum package dispensation in food attacking physical organs, and brain regions, there was no technical possibility of imposing 'Life cages', wherein the external cage, and the internal cage are synchronized to inflict extreme pain, high intensity rouge psycho torture on 9 billion citizens of the 191 world countries. These were the years and decades before 1940. All the houses were only houses with no Nixon technology installed. All the offices, government buildings, industrial or other buildings were only those respective buildings without Nixon technology installed. The multi mode see through into others houses from adjacent buildings, visual devices did not exist. Serum package was not yet conceptualized and tested. Rouge USA UK Rouge work between 1777, 1860-1940, by the year 1940, resulted in them,

- building the earliest versions of Nixon technology by year 1940. Miniaturization of cameras to be used in World War II, from their early usage and attempts in World War I.
- rouge pharmaceutical companies started building devices for some tests and start to use see through imaging in the name of tests. These go on to develop to become multi mode see through video devices.
- cr, dr, Sr, Tr usage with drugs, molecules, counter molecules, poisons was in use and could be dispensed into food attacking citizens from across the world countries. World War II was the first time usage of poisons, and counter molecules used extensively to torture and inflict severe pain in the popularly recognized across the world 'concentration camp torture of World War II'.
- Transmission signal technology, and satellites were used during World War II. With all of these technologies evolved, all of which were to be combined, advanced in years, decades to come, the rouges go on to build their grand agenda of infiltrating and attacking the world countries, with full plan, rouge intent, psycho objective, to use, abuse, torture, murder, and extract life blood organs and heart to receive second lives, by dominating on 191 world countries, and attacking 9 billion citizens. Their intent was only to inflict disease, death across world countries, and murder men at will, use women at will, by forcing their rouge authority on 191 world countries, and hence they organize the puppet rouge old world order, a puppet rouge United Nations formed after World War II. At the center of this rouge puppet UN, is the monopoly built for US dollar, which was used to apply all levers on world countries, waiting to be attacked, and their citizens murdered. Project Earthling(c) ends this rouge monopoly and this rouge old world order.

These technologies that started to intrude into private lives of people in 1940, with every passing year, and decade advanced to impose MOST ADVANCED LIFE CAGES on 9 billion people, from 191 world countries, which by year 2000, were ready to move into next stage of receiving second lives by murdering young men, women, from across 191 world countries. The status of these technologies in year 2024, coming to the end of ad years, can be defined in this way.

- Your current day room, house, office, government building, industrial building, or other can be without your knowledge built with, installed with, integrated with, or surrounded with micro, nano electronic Nixon technology, with highest grade electronic transmissions, and communications established with satellite systems, rouge eagle eye, capturing transmitting every audible voice signal, verbal communications, video signal, continuous video transmission 24 by 365, to the rouge old world order, everything received by rouge USA and UK.
- The multi mode see through medical devices, video devices are advanced to see the target subject, in the room, house, office, government building, industrial building, or other, from the surrounding 5 sides or even 6 sides, are high definition videos seeing the people naked, and in several other modes they want, and could be transmitted to anywhere anyone across the world countries, certainly received by rouge USA and UK.
- - cr, dr, Sr, Tr, technology evolved into the highest potency serum technology packages, with 'SCHEDULED POISONOUS ACTION' inside the target subject human body, attacking all physical organs, attacking all brain regions, entire brain, with highest intensity, precision, poisonous action, and torturous action, executed precisely to the second, or fraction of a second. The technology is so powerful, and will inflict precise highest amount of torture and unbearable severe pain, could be made sustained for hours, days, easily inflicting 'concentration camp torture of World War II raised to a million times' on any target subject. All military soldiers with even the slightest possibility of becoming captives must carry the 'death pill' to save themselves. It is not worth to take the torture death. Rouge USA UK are attempting to use this at 9 billion citizens from across 191 world countries. This could be used at any citizen, including the richest billionaires from 191 world countries, without exception of 191 country Leaders, Presidents, Prime Ministers, Chief Ministers, to control, manipulate, target, torture, by putting these subjects into Life cages, combination of Internal, brain, and external cages. The decentralized world is the only answer for this, which is delivered by my authored Macro Transformations.

- With advances in satellite systems, and signal transmission technologies, and combining all these technologies, they can execute their rouge plan, precisely calculated for the second, and were in execution phase of their rouge agenda, psycho objective to use, abuse, torture, murder, and extract life blood organs and heart, from 9 billion citizens of 191 world countries. This plan of theirs is fully terminated and ended by the Macro Transformations Project Earthling(c), and New World Order, delivering true freedom, and real independence to 191 world countries, with the upcoming World Independence Day.

NEW WORLD ORDER COUNCILS, JUDICIAL COUNCIL, MEDICAL COUNCIL, AND Special technology Unit STUN, TO DESTROY LIFE CAGES AND IMPOSED SHACKLES ON 191 WORLD COUNTRIES. In the current year, present day, the following facts must be recorded and understood by 9 billion citizens and 191 world countries that are most relevant to understanding Life cage, External cage, Internal cage, and Brain cage. And even more importantly, the significance of JUDICIAL COUNCIL, and MEDICAL COUNCIL in the New World Order, which will be supported by 'SPECIAL TECHNOLOGY UNIT'. Without the STUN division, which will have the technological capability to identify the existence of external cage including micro nano nixon technology, possess the technological capability of entirely dismantling the imposed external cage, tag the evidence and present to the World court at JUDICIAL COUNCIL, will have the authority to issue warrant to immediately enter all the surrounding homes, buildings, on 5 sides, or on 6 sides, if required another layer of houses, buildings, surrounding the adjacent houses, and buildings, to profile the occupants, search and create a log of all electronic devises, the operating functioning modes in them, search for any video capturing devises, multimode video capturing devises, and will possess the authority to seize such devises that you must not own, including devises functioning with banned technical modes of operation, will possess the technological capability of identifying the existence of internal cage, brain cage attempts by dispensed serum packages into the consumed food, record the counter molecules used with chemical formula and molecular structure, tag the evidence and present to the World court at JUDICIAL COUNCIL, will have the full capability to identify originating signal transmissions, and reception of these signals transmitted by intermediate communication systems, or the satellite systems, to absolutely tear apart, destroy, break the imposed shackles, the life cage at anyone, citizen, including the richest billionaires, the Leaders, Presidents, Prime Ministers, Chief Ministers, from 191 world countries. Further, New World Order councils will allow the nominated set of citizens, technical teams from each of the 191 world countries, to receive STUN technology training to identify, dismantle, tag, and report life cages to the World court at Judicial council, for an affordable price in Earthlings.

For case study 36, Synchronized attacks, with the external and internal serum package cages, to form the LIFE CAGE.

Using the surrounding 5 houses, or 6 houses, an alternative to everything executed from a distant 'specially set up command center', to impose and execute the Life cage, a factor directly connected to amount of money spent to attack this target subject, and put a life cage on him. In my case, the unlimited printing of usd was poured, thrown to attack me for past 17 years, an estimated 50 billion usd was spent attacking me. They had exclusive 'central command control center established in usa' for imposing 24 by 365 Life cage, while also having people surround my room at rental stays in usa. I was attacked with the combination life cage. The money spent is an attempt to steal 93 Trillion, and 50 billion usd unlimited printed was nothing for the rouge usa uk in the rouge old world order. A 'central command center' imposing life cage is for exclusive select targets that include high net worth individuals, possibly richest billionaires, and world Leaders. The money spent here is high allowing the financing of setting up 'centralized command center' imposing life cage in the city the target is living. For regular citizens the synchronized attack, could involve engaging the surrounding 5 houses, or 6 houses, by forging alliances with them, and hence these houses would host the multi mode video capturing devises, and taking scheduled actions at playing recorded sounds (a keyboard, or even a simple digital storage devise that can record and store 1000'S of recorded sounds), or in real time delivering harassing, threatening, lecherous, psycho sounds, lines, sentences, which are transmitted to the target subject. These 5 houses, or 6 houses receive a message, the schedule of 'POISONOUS ACTION' that is to be unleashed in the target subjects human body for the next 24, or even 48 hours. The internal cage, brain cage imposed by the serum package is watched live by these surrounding 5 houses, or 6 houses on their multi mode video devises, which allow them to see all internal organs of the target subject, each organ being attacked, each cell inside each organ being tortured and attacked, rendered in different colors and different color intensities indicating the tortured cell, tortured organ, including the activity in the brain regions, and the entire brain, and further capture, and record the full 24 by 365 visual of activity inside the target subject human body including the food being digested, digestive system in live action, respiratory susem in function, optic vision system function, auditory system function, strain imposed torture on skeletal system, bones, and joints, without leaving one human cell, and without leaving one human organ. This is far beyond watching human beings and target subjects naked. This is watching all their internals, movement of every cell, every organ, activity of every cell, every organ, and the full activity schedule of the rouge serum package to impose damage, torture, on the target subject, is transmitted and is with the surrounding house traitors.

The target subjects entire life, every activity, what he/she is typing on their machine, laptop, smartphone, writing are all captured directly by capturing the hands, fingers movement with reference to the standard 'querty' keyboard, and keypad in devises. The information of what you write is also known by your hand movement. What you read is also known by knowing the book name, including the page you are reading, they would get a copy and know the content. If you are reading online books, news, they known since the devise is already hacked in external cage. The target subjects entire life, schedule, life events, schedule of his/her day, sleeping time, working time, taking shower, eating, everything is watched in beyond naked multi mode devises. You are not just naked, your entire life is on display to rouge usa uk in rouge old world order. Consider you are naked and living your life in the city center of the city you are living in. This is the exact definition of life cage, imposed external cage, and internal cage, brain cage. While the target is observed for few weeks or months to capture his life activities, events, is the preparatory work, the psycho pleasure taker from imposing torture, controlling, and altering the target subjects life, surfaces, and takes control of the target subjects entire life, the subsequent stage in imposing LIFE cage. The LIFE cage is established and their psycho work started. From here on the Life cage, will control the life of target subject, their every second of life, every hour, and they know the finest detail of not just your body, your organs, your internal cells, but also the full details of your life including your known circle of people, known network of friends, colleagues, your financial status, earnings, spending, your income tax return, your wealth status, your assets, money saved in bank, meaning your entire life. The serum packages which could use up to 20,000 counter molecules, poisons can attack, damage, slowly, steady pace, accelerated pace, all human organs, all cells within each of the human organs, control alter body temperature, attack, manipulate all brain regions, entire brain, alter its functions, and also terminate or kill any organ, or induce death. The torture to attack and test control limits of each human organ, each human cell, and the military captive grade torture capability of serum packages and counter molecules is beyond death every second in the life cage.

Other factors that must be understood, to clearly understand the synchronized attack in LIFE CAGES.

- The cage, a room, a house, a building, in which the target subject is contained, or attacked, is fitted with connections that supply what is designed, planned to be supplied or given to the target subject. Examples, include the water connection coming into the cage. If they say it is drinking water, it will contain serum packages delivered to attack the target subject and result in intense suffering, and poisoning. It is a torture and attack life cage, where drinking water will never be given to target subject. If they say it is not drinking water, it will be filled with 'Instant spike' serum technology packages, if the target subject wants to brush his teeth and puts few droplets of water into his mouth, it would have an instant spike drug, that could put the target into instant anesthetic sleep, within few seconds. The potency of instant spike drugs with few droplets of water touching the surface of the tongue, causing anesthetic sleep, or further intense trauma induced to brain regions, must be understood. Other connections they receive output, only from exceptionally brilliant subjects, testing urine, stool samples regularly, in my case to understand why I am such a genius compared to the rouge usa uk.
- Mutatis mutandis, cable setup box, for customized local shot broadcast, newspaper delivery, for customized targeting news delivery, and other delivery or local vendor, seller. All delivery made to the target subjects house, will be prepackaged with serum poisons, intended to deliver a specific targeted outcome.
- The multi mode video devises are seeing you beyond naked, watching the human internals, 24 by 365, watching your human systems, working and functioning LIVE, second by second, all of which in future would be altered functions targeted by serum packages, to inflict mockery, laughter, inhuman behavior, suffering to the target subject. The live internal movie watching includes the functioning of your five sensory systems, respiratory system, digestive system, pulmonary system, kidney urinary track system, sexual reproductive system, skeletal system, brain central nervous system, cardio vascular system, in summary every organ, and every cell inside every organ. These devises can deliver high definition visualization of human internals. We are past nudity, full live nudity life broadcast, and at all internal organ live functions broadcast all received by rouge usa uk. It is like the target subject living his / her life naked in the city center openly, in the city you are living in.
- In a cage, everything is preplanned and preset for torture and attack, certainly in the cases of military captives situation, or in places you are staying temporarily in rouge countries like usa uk, to set you up and attack you, while they laugh.
- The cage is an acoustical chamber which is digitally connected to devises that have recordings of 1000'S of sounds, punch lines, lines to be delivered for harassment, indirect threats in so many ways, by playing threatening sound tracks of some music they know that you know, spanning entire history of music and movies.
- Refer to POV FE 9, SrinivasDevathi.com, all were to be tortured to death in these LIFE CAGES, torture inflicted by age segment, and with specific intended agendas and plans for attacking people in each age segment, and at every year within the age segment.

Case Study 37 Description. Synchronized attack with serum packages imposing internal cage including brain cage, which is known to the surrounding 6 sides external cage imposing rouges, so thoroughly coordinated to impose a high intensity, extreme pain, psycho, torture inducing life cage, which is your room or house. In this life cage room, house, a cube, all 5 sensory inputs and responses are used to attack the target subject with 24 by 365 harassment.

Precondition. Same as earlier case study. For case study, Life cage attacks on 5 sensory systems with perceptions, and responses.

With the introduction of Life cage, I introduce synchronized 24 by 365, perception and delivering targeted response, or torture, harassment response to five human sensory systems. LINEAR single organ, system attack, perception and responses are presented here. Combination organs go into severe diabolical induced attacks, and worse psycho responses.

Perception. The target subjects five sensory systems are fully visible and in live broadcast for the surrounding psychos seeing the multimode video systems. This video is beyond naked, your body internals, the live recording of your five sensory systems seen live on their device screens, monitors.

- Optic visual system. The serum package actions could include burning the eyes, inducing blood shot eyes, attack and alter the pupil functions, manipulate and alter the brightness, darkness perception of eyes, alter the function of rods and cones, make the vision blurry, induce partial blindness, or worse full blindness. In this serum package you could consider all attacks other than inducing full blindness, combined with attacking all the connected, related brain regions.

- Nasal respiratory system. The serum package to inflict severe constraints, problems to diminish the respiratory system functions, like explained in an earlier case study could be induced to the target subject for a sustained period of time.

- Auditory system. They keep on inducing temporary ear infection and eliminating it, by using serum packages. The auditory system attacks could also include damage to hearing and recuperating, altering wax formation in ears. The sustained non stop attacks include induced never ending you want to stop however cannot stop, buzzing noise perceived by your ears, and this in varying decibel levels from near negligible mild buzzing, to extremely high decibel noise, unbearable noise, from the perspective of the auditory sound perceiving system only. The other psycho internal cage attack activities that combine with or are coupled with the intense buzzing in head, include attacking several brain regions, other organs, degenerating brain functions, and magnifying the pain perceptive regions in human brain. The buzzing is a camouflage.

- Oral system. They can induce intense dryness by using the dryness inducing counter molecule, inducing desert conditions in life cage. And can burn the entire digestive track system with counter molecules. With previous day serum package torture and attacks, the target subject could skip eating food for an entire day, 2, 3, or even 4 days. They can induce sensation of intense hunger while torturing, forcing to eat more serum packaged poisoned food.

- Sensory touch system. The serum package torture includes body temperature variations, inducing burning, itching, across the dermis, skin, and can also induce sweating, or profuse sweating to attack the target subject.

Responses. The psycho responses are prebuilt in the serum packages, and could also be delivered by different sounds, lines, threats, psycho remarks from recordings or instant verbal noise, from the 5 surrounding houses, or 6 houses.

- Optic visual system. By looking at the SERUM PACKAGE schedule published to them, by pressing keys on keyboard, or digital system, recorded sounds, or lines are transmitted. When eyes are burning, sound of hahaha. When inducing blood shot eyes, a line 'oh, are you crying is transmitted'. Attack and alter the pupil functions, manipulate and alter the brightness, darkness perception of eyes, alter the function of rods and cones, make the vision blurry, they transmit 'some psycho sound a lecherous will you fuck me type of line is delivered'. When you think you are induced partial blindness temporarily, they can transmit a line 'after you are blind, we will torture you, cut you and take your organs, hmmmmmmmmmm'. This type of disconnected, rouge, psycho, harassment inflicting 24 by 365, never ending, non stop rouge responses are given synchronized with the serum package psycho action inflicted on the target subject.

- Nasal respiratory system. While talking, or just like that, the induced awkward pauses in speech, induced spit, saliva, pushed food into mouth, water molecules gulp, sounds and lines like, 'be scared, to address 191 world countries, hmmmmmmmmmm', choking, 'fear of talking?', gulping, 'poor oratory skills cannot talk, hmmmmmmmmmmmmmm', 'will you talk and address 191 world countries', doubt seeding, type of nonsense remarks are thrown at the target subject. I have gone right past all of such useless nonsense used to attack me. These are simple to negligible linear single organ attack, response case studies I introduce here.

- Auditory system. At induced torture and severe buzzing sound, they would transmit sounds of joyous celebration, drinking, or dining. Make lecherous psycho sounds, giggling, laughing, smiling, to harass continuously.
- Oral system. While intense dryness, desert conditions are induced, person is suffering, they make enjoying sounds, of drinking cold water, 'laughing at the inflicted torture, pain, suffering, and thirst caused agony'. While target subject skips a meal, skips food for a day, to avoid serum package torture, they make eating, drinking, cold water pouring sounds. Continuous lecherous sounds harassing the target subject to push the person to shout, yell, and possibly force to kill himself, herself.
- Sensory touch system. To inflicted excessive temperature, while the target subject is burning with excess body heat, burning skin, they deliver sounds of psycho lecherous sounds, giggling, laughing, eating food, burping, and enjoying the suffering of the target subject.

To inflict 24 by 365 harassment, with the known calendar, schedule of serum package action, every few minutes, when you sleep, wake up, surrounding houses deliver to acoustical chamber, lecherous sounds, psycho, drinking, gulping, burping, sounds combined with visiting toilet sounds, urinating, etc., type of sounds are made to attack target subjects. The surrounding houses are incest families, child molesters, pedophiles, families where everyone has sex with everyone, mother fucker, daughter fucker, grand mother fucker, grand daughter fucker, rouge usa uk culture spewing, venomous psycho loser garbage trash worthless families, working for 5 usd per hour, paid in bribes in rouge old world order, for looking at multi mode video screens 24 by 365. The cheapest job and pay on planet earth. Worthless garbage trash working for worthless garbage white trash of usa uk, uspto. THIS IS NON STOP HARASSMENT OF TARGETS IN LIFE CAGE. While targeting me, psycho remarks, lines, incestuous voices, are to used to attack and destroy HINDUISM RELIGION, and to tarnish and destroy the culture, society in INDIA. Terminate HINDUISM religion, and murder 1.2 billion HINDUS is one of their agenda.

With this simple linear case study introduction, you see what could be inflicted upon a target subject put into Life cage, using synchronized attack in life cage, used at just the five sensory systems. The current day system needs court orders to enter and search these surrounding houses, that I have prayed with the Honorable court in this writ petition, interim relief for investigating surrounding houses.

Serum package attacks the following organs

- These serum packages dispensed in Life cages, attack all physical organs in the human body, and all the cells inside every organ in the human body, until the target subject is alive, with an extremely high number of permutations and combinations of attack available to attack the target subject for several days, every day, interpret, every hour, interpret, every minute, interpret, every second, of their caged life.

Serum package attacks the following brain regions

- These serum packages dispensed in Life cages, attack all brain regions, entire human brain, and all the neurons in the brain, central nervous system, until the target subject is alive, with an extremely high number of permutations and combinations of attack available to attack the target subject for several days, every day, interpret, every hour, interpret, every minute, interpret, every second, of their caged life.

Serum package estimated timeline of action

- Sustained, and permanent, serum packages to act every second of every day, for the target subjects caged life until death.

Objective

- Put the 9 billion citizens from across the 191 world countries into 'LIFE CAGES', and command, control, manipulate, and kill them at will, in a CAGED PLANET with 191 caged countries, caged Governments, and caged Leaders.

Purpose

- Rouge self proclamation of 'leadership of planet Earth', and put 191 world countries into ENDLESS, NEVER ENDING SLAVERY, on what was to be a SLAVE PLANET with 191 slave countries, slave Governments, and slave Leaders.

Camouflage. do'nt be deceived.

- They will say serum packages are good for you. This is absolute nonsense. You will be put in a SLAVERY cage, EXPERIMENT cage, and the only way you were going to end the slavery life was with death, that also inflicted by them by way of serum package, at their choosing.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Case Study 38 Description. The life cage harassment includes framing target subject, young man, to harvest his organs, heart, by continuously torturing, hyperactivating, all his sexual organs, with planted screenplayed movies. Young men all across the world must become aware of this negative tactic and must support the taking live of New World Order. This sexual incitation life cage is directed towards your murder.

For case study, Life cage of young man set up for murder. Precondition. Same as previous case study.

All young men, from across the 191 world countries, are in the undrugged state, with their normal male physiology and brain regions, entire brain functioning without any serum technology package poisons, counter molecules action, can go on to live their full life without any out of control jacking off, or masturbation. They are fully capable of leading a full family life, by getting married after they have a source of income to take up family expenses. How will this help the rouge psycho old world order? How will they get the rouge second life? How will they force frame young men from across 191 world countries, and commit the murder, to extract blood, life, organs, and heart? How will they get an isolated women for sex and labor slavery? They create a Life cage to frame the young man and commit murder.

Given that they want to commit the murder of young men in 20-30 age for extraction of most life, they decide to impose life cage, with external cage forcing, delivering, transmitting words, transmitting lines, 24 by 365, that are continuous harassment, inciting the target subject continuously, by transmitting lecherous sounds and remarks, and recording the targets life and activity in live video, and also multi mode video capturing devises, so that they could frame him. These external cage harassment, and transmissions are used in combination with dispensation of serum package that will continuously, non stop incite the male sexual and reproductive organs, prostrate, groin, testicles, and penis, by giving repeated erections of various dimensions, combined with attacking various brain regions, switching off the 'Information processing region', and 'Rested and in control region', causing distortion in several brain regions, putting the target subject in totally unsettled, restless, distorted, and chaotic state, by using severe incitational counter molecules, poisons attacking various brain regions, sexually inciting the target resulting in the young man framed to be shown as high frequency out of control, jacking off say dozen times in six hours, and fully set up for murder. The framing of the young man is for jacking off spree, or masturbation, which is fully simulated in the life cage, with no truth, or reality to it, since it is drug induced. The young man in the rouge plan of the rouge old world order, will never exit the Life cage alive, and the plan is to murder him in the cage. In their rouge plan, this also leaves out a young women, that he otherwise would have married, isolated, and separated for using her for sex slavery, labor slavery possibly until death.

Serum package attacks the following organs

- The serum package attacks all male sexual and reproductive organs, continuously inciting the young man, in a sustained way to frame him, and murder him.

Serum package attacks the following brain regions

- This serum package attacks and acts on several brain regions. In Life cage, the intended attacks are continuous and sustained, until they achieve the objective to frame him, and murder him.

Serum package estimated timeline of action

- Several hours in a day, spanning several days, with life cage imposed 24 by 365.

Objective

- To destroy engagements, couples, marriages, families, across the 191 world countries, isolate young men, put them in a life cage, frame them and murder them to extract blood, organs, life, and heart, while forcing women to become sex and labor slaves.

Purpose

- For the rouge psycho old about to die white trash in usa uk, to receive a second life. This attack is on all 191 world countries, since the rouge plan was to source organs, hearts for demand generated from across rouge usa and uk caucasean white trash.

Camouflage. do'nt be deceived.

- They might say what Life cage? STUN technology is the immediate need, requirement for all 191 world countries, 9 billion citizens, to be able to report the internal cage, brain cage, intrusions, report the external cage, and prove the imposed life cage to the Honorable court and for the rouges to be judicially punished.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Case Study 39 Description. The life cage harassment is to inflict death on humanity, with no respect to human beings, with permanent harassment and slavery imposed, intended towards torturing citizens of all age groups, hence keeping 191 countries and 9 billion people in slavery forever. Their plan of respectless harassment, and mockery, laughing, entertainment type of life cage support plan for 60-99 year olds is dispecable, inhuman, torture, and worse than death. Plan for 20-60 year olds is not much different.

Precondition. Same as earlier case study.

With technological advances that are introduced in the precondition for the case study, rouge usa uk, and the rouge old world order conceptualized a grand plan, which included the most devious diabolical rouge, psycho plan conceptualized by their governments and pharmaceutical companies that built 20,000 counter molecules, poisons. The grand plan was to force, command, order, dominate, threaten, apply all levers, on 191 world countries, their Governments, and their Leaders, Presidents, Prime Ministers, and Chief Ministers, to forcefully impose a rouge psycho revenue plan of one usd per day per person, applied at all 9 billion citizens living across 191 countries. This was a revenue model that would allow the rouges to control all 9 billion citizens in life cages, with fully built out external cages, everyday dispensed serum package to each of the 9 billion people, imposing the internal cage and brain cage, which will be loaded with poisons attacking all organs, all brain regions, and resulting in torturing, controlling, using, murdering, men at will, torturing, controlling, using, imposing slavery, on women at will. This is the 191 world countries, their existence, and 9 billion citizens lives tied to strings to an invisible force that will control, use, abuse, extract blood organs heart life out of the citizens before death or just after their planned designed executed murder. In this grand plan, they were going to allow their choice of people to live and survive, their choice of people to do jobs forced on them, resulting in the full slavery, caging of all 191 countries, and 9 billion citizens. With the case studies I have introduced about Life cage, this planet was to become a doomed planet, with only caged human beings, who were only to be animals, treated like animals, used, killed, like animals, and not even recognized as human beings.

The animal like treatment, torture to be imposed in their grand plan with serum packages, will include, cut out plans for 20-60 year segment, and 60-99 year segment. The life cage bedroom, bathroom watching 'baldwin psychos' are in rouge usa uk, who are inhuman, psycho, hourly wage workers that are disconnected with humanity, have no sense of caring, human connection, say paid 1usd/hour. These are the psychos that will attack the target subjects, by giving the next day internal cage serum poison attack plan on the target subject, that would inflict torture the target subject to death and laugh at the suffering.

- With reference to POV FE 9, SrinivasDevathi.com they intended to raise the kids in the ages of 1-20, to grow up to be retards, with no mental ability, no aptitude, no scholastic ability, no reading, writing, and information processing skills. Their requirement is that the 20 year olds should continue to be in their slavery control, and predisposed to be order takers, never able to question slavery, and physically grown to their normal size, for extracting blood, organs, and heart, ready to be murdered. So, the 191 countries that they thought were their slaves, their kids would be given poison serum packages to ensure the brain growth is not there. The brain regions during the growth will be continuously targeted, neurons burnt, brain regions tortured, and possibly resulting in what the rouge old world order defined as stunted growth. Mentally challenged. The very intent, reason for them to induce all the diseases, with reference to POV FE 10, SrinivasDevathi.com. After looking at the grown up retards at 20 years of age, the rouge usa uk in rouge world order, would put out an individual plan for the life of each of them.

- For age groups 20-60, men to be used and killed certainly by age of 60. They are the physical labor workers, who would be assigned to some of the operational work that must be executed, between the ages of 20-60, all of them dying by the age of 60. Between 20-30, Atleast half the male population would be murdered, to extract the blood, organs, and heart to receive rouge psycho second lives in the rouge old world order. The ones who make it to 30, might have a chance to survive until 60, depending on the physical labor work that must be executed. The serum packages dispensed are according to this plan, killing over half of the men between 20-30 years of age, and in a planned methodical way, slowly do rouge experiments on the workers, to support the subsequent lives received from murder, between ages 100 to whatever number the caucasean white trash of usa uk had thought in their psycho rotten minds. For women, the general plan is expected to be sex slavery between the ages of 20-40, sex along with labor slavery between 40-60. They will be hit with serum packages that will burn them, with cosmetology reasoning and increasing the hotness. Knowing the power of serum packages most women would beg for anesthetic sleep, which is also torture beyond explanation when you wake up intermittently by serum package action. The labor slaves might be supplemented to get the work completed. In a state of dead yet alive, with shackled lives, caged lives, used like dead meat, the women would live until 60 years, begging for death every passing year.

Case Study 39 continuation. The life cage harassment is to inflict death on humanity, with no respect to human beings, with permanent harassment and slavery imposed, intended towards torturing citizens of all age groups, hence keeping 191 countries and 9 billion people in slavery forever. Their plan of disrespectful harassment, and mockery, laughing, entertainment type of life cage support plan for 60-99 year olds is despicable, inhuman, torture, and worse than death. Plan for 20-60 year olds is not much different.

- For 60-99 men and women, with near negligible men surviving, and any surviving are for extended experiments in this age segment. Women, that they want to retain for labor slavery work in this age group might be supplemented to live, while say half of them would be retained for labor slavery and ongoing extended experiments. The monitoring of these life cages and dispensation of a serum package a day, given the volume of population to be managed, controlled, attacked, and killed, will be working on shifts, other retards, paid 5 usd per hour, who would be people with no humanity left in them, no human connect, no emotional connect, no respect for the target subject, will inflict inexplicable horrors on these target subjects who should be used for labor slavery, while conducting horrible experiments, to support rouge subsequent lives of caucasian trash of usa uk. The disconnected retards that the external cage imposers would be will be making fun, mockery, laughing, cracking jokes, while inflicting pain, suffering, mental physical agony, torture, attack all physical organs, attack all brain regions, and at the expense of these physical organs and brain regions, will be laughing and getting sadistic pleasure. Example, putting them to sleep for few days, making their human body systems function out of sync, just to create funny scenarios, jokes, and laugh at the suffering citizen. This is the worst nightmare these citizens will have to live through.

Such abuse was planned to be inflicted on 191 world countries, and their 9 billion people in the rouge old world order, by rouge usa and uk. The universe, if there is life elsewhere and come to know about planet Earth in rouge old world order, would die in shame, when they would observe planet Earth, and its condition. The alien life in our galaxy would think what is this disease called usa uk for this planet, and why has no one ended this disease. Aptly, my authored Macro Transformations come along and save the planet, humanity, 191 world countries, and 9 billion people. Unfortunately there is no communicable life forms in our solar system, otherwise, they would have asked these same questions. My answer to them, representing 191 world countries, and 9 billion people would be the authored Macro Transformations, and the better life, free of shackles, free of cages, free of chains, free of slavery, all of which will become a reality on the 'World Independence Day'.

A planet, with my Macro Transformations is put in the correct orbit of life, with all 191 world countries taking control, taking charge of their own future, stand on their own feet independently, and protect and provide sustained balanced life for their country citizens, for decades, centuries, and millenia to come. The New World Order, councils will provide the full Macro Guidance, for all the countries to reach their country economic goals, and objectives. This will be fully authored and guided by my work for 'Goal Year 30 FE for INDIA', which will be authored by me, into the full Macro Guidance that will become the Macro Direction to follow by all the 191 world countries. Project Earthling(c) and the New World Order will end the rouge plans of usa uk to keep this planet a doomed caged animal planet, and take 191 independent countries with economic prosperity and sustained balanced life into the future millenia to come. The launch of Project Earthling(c) will be a timeline marker for planet Earth, to be recognized as 'World Independence Day'.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Case Study 40 Description. While rouge usa uk imposed life cages, to induce maximum pain, torture, which is like death to human beings, their grand plan to attack 9 billion human beings across 191 world countries, because they were dripping with unbelievable amounts of racism, hatred, and jealousy, included using sustained serum packages designed to attack and destroy specific organs, resulting in the 9 billion becoming unattractive.

Precondition to be understood by all the 191 world countries, and 9 billion people of the world.

There is nothing called attractive, which is a singular accepted definition, explanation, understanding, or meaning by all 9 billion people across the world. There is nothing called ugly, which is a singular accepted definition, explanation, understanding, or meaning by all 9 billion people across the world. These words are subjective and were abused by rouge usa uk, rouge old world order, to use the words, to their benefit, to attack and murder people from across the world countries. Given the National Wealth Bill introduced by me, and accessible at my website SrinivasDevathi.com, and mutatis mutandis, its upcoming equivalent across 190 world countries, cross country marriages will not exist in the world.

In the decentralized world, these words must be left for the liking of the person, who in the context of most of the 191 world countries, will go on to marry the person of his/her liking to lead a full family life, along with living a full life for 90-99 years of age. In the decentralized world, marriages in each country, will be among their own majority population, religion, and these words must be interpreted, or understood within the cultural context, societal context of your country, for your citizens, to find their life partner. Given the cultural and societal compatibilities, and also proven statistically from historic data in the rouge old world order, cross country marriages, cross religion marriages are near zero in the world in comparison with world population, and almost all of them have failed and are unsuccessful. For genetics, the 'International Sperm Bank' will be established, for couples to choose a different genetic father to conceive a child.

With these facts, all engagements, marriages are expected to be local within a country, mutatis mutandis for all 191 world countries. Medical council will never recognize these words, and will be bound to the definition of 'disease' given in POV 2-45, SrinivasDevathi.com and hence Medical council will never involve themselves in any cosmetology work. For INDIA, I can clearly state the country recognizes, and identifies itself as 100% 'COLORED COUNTRY', and our interpretation would be that the words attractive, ugly are of no value, or much worth. The guidance would be to have a full family life, all of them living full life until 90-99. With confidence, I can state that this ideology would be considered and extrapolated to their countries, their cultures, and their societies, mutatis mutandis by 190 other world countries.

Rubbishing certain words forced on the world by rouge usa uk rouge old world order. Hottest, super hot, smoking hot, smoldering hot. Must fuck her. Must have sex with him. Get his sperm. All these superlatives, and connected ideologies in the context of a full life, are absolute nonsense, rubbish and useless. What is a young man who is attached with these terms, phrases supposed to do? Fuck all women of other gender tagged with these terms? It is humanly impossible. So, I suggest all the young men, not to be carried away by such superlatives, or attached to such terms, and go easy on your self, find the right life partner for yourself, and lead a full family life. Mutatis mutandis to young women, across all the world countries, rather than getting yourself fucked by several men, and becoming worthless, and waste by the age of 30-35, you must find the right life partner and consider a full life, and live your full life. These superlatives were used to draw you, and put you in a life cage, in anesthetic sleep, I refer to POV FE 6, SrinivasDevathi.com and use you, the superlative, until death. These superlative terms were used to selectively draw select population into rouge usa uk in rouge old world order, make the others, non superlatives, rest of the population feel they are worthless, make them feel life is worthless, and eventually murder them, for the objective of extracting your organs, including heart. All the 191 world countries, and their citizens, must trash these superlative words, their usage, and the exploitation and damage of your life that comes with them.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Case Study 40 continuation. While rouge usa uk imposed life cages, to induce maximum pain, torture, which is like death to human beings, their grand plan to attack 9 billion human beings across 191 world countries, because they were dripping with unbelievable amounts of racism, hatred, and jealousy, included using sustained serum packages designed to attack and destroy specific organs, resulting in the 9 billion becoming unattractive.

Serum package attacks the following organs

- Rouge usa uk, designed the rouge old world order to use, abuse, exploit, cage, extract semen sperm blood organs heart life, and kill the citizens of all 191 world countries. They go on to use the most popular negative tactic 'divide and destroy' in so many ways, one of which was using these words attractive, ugly, however, any which way they want. They also introduced, and incited citizens from across the 191 world countries by using these superlatives. All for using some in anesthetic state until death, and the others to be used for organ extraction, and for labor slavery until death. This Serum package attacks any and all physical organs of target subject, citizens of all 191 world countries, to drive this 'division' forcefully into the 191 world countries.
- The serum package is intended to, by their definition of attractive, or ugly, force the ugliness on world population. Segregating the few that they call, by their definition to be used in anesthetic sleep until death. All of this, out of pure racism, hatred, and jealousy, they have used serum packages to attack men and women, for example, eliminate general statistical dimensions, of men, and women, and induce abnormal dimensions, what might have never happened if original pure food was available without these serum packages, in future STUN tested and approved. They have many ways to increase weight of each organ within the human body, and the entire body, force inducing obesity, and beyond control limits. In summary, out of racism, hatred, and jealousy, they intrude into 191 world country cuisine, 191 world country food, disperse serum packages to attack 9 billion citizens rendering them unattractive in their definition.

Serum package attacks the following brain regions

- These serum packages could also act on several brain regions, forced to drive the divide, drawing people with racial attacks, into removing blood of their face, resulting in them looking pale and dead, by inducing buzzing in the brain, which in their definition is attractive, a lie known to 191 world countries, with diabolical objectives of drawing them into anesthetic sleep.

Serum package estimated timeline of action

- Several hours on the day, and sustained attack in the Life cage, to render citizens of 191 world countries unattractive.

Objective

- Self proclaimed attractiveness of rouge usa uk in rouge old world order. Impose LIFE CAGES and drive unattractiveness in to the lives of 9 billion people, across the 191 world countries.

Purpose

- Call themselves attractive, and call 9 billion people from across 191 countries ugly. Force division, and exploit both the divided groups in LIFE CAGES.

Camouflage. do'nt be deceived.

- They will sell this as cosmetic product, and say it will make your attractive, with no definition, and meaning to the word. You will die. Your life will be destroyed. You will be caged in Life cage.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Case Study 41 Description. While rouge usa uk imposed life cages, to induce maximum pain, torture, which is like death to human beings, their grand plan to attack 9 billion human beings across 191 world countries, because they were dripping with unbelievable amounts of racism, hatred, and jealousy, included using sustained serum packages designed to attack, resulting in the 9 billion becoming physically weak, strengthless, staminaless, and energyless.

Precondition to be understood by all the 191 world countries, and 9 billion people of the world.

The terms strongest man, strongest women, do not have a singular accepted definition, explanation, understanding, or meaning by all 9 billion people across the world. The terms weakest man, weakest women, do not have a singular accepted definition, explanation, understanding, or meaning by all 9 billion people across the world. These words are subjective and were abused by rouge usa uk, rouge old world order, to use the words, to their benefit, to draw some into strength building, intentionally calling several men, women, weak, use poison serum packages at them, attack and murder them from across the 191 world countries. For genetics, the colored men, and the dark men genetics will be available at 'International Sperm Bank', for couples to choose a different genetic father to conceive a child.

All men across the 191 world countries, are strong enough to lead their full family life, and live until the age of 90-99. Mutatis mutandis, all women across 191 world countries, are strong enough to lead their full family life, and live until the age of 90-99. All human beings are predisposed with enough strength to get through their life into ages of 90-99, with locally sourced original food, with no poisonous serum packages in them, and with Medical council guidance. The Medical council objective would be to deliver full life to all men and women from across 191 world countries, by taking up preventive and supplementary approach for citizens in age group 60-99. People drawn into strength competitions are beyond the scope of this case study, in line with POV 2-45, and Medical council objectives.

Serum package attacks the following organs

- Rouge usa uk, designed the rouge old world order to use, abuse, exploit, cage, extract semen sperm blood organs heart life, and kill the citizens of all 191 world countries, so that they could live subsequent lives by harvested organs. This required them to draw many subjects into a range of illegal experiments. They forced the idea of physical weakness, and come into our strength building programs, all directed towards their second life by murder objective. Serum packages are available to weaken every human organ, at a planned slow, medium, or expedited speed, or instantly terminate an organ. Rouge usa uk have used human physical organs weakening serum packages to inflict weakness, organ failure, and also early death across citizens of 191 world countries. Why are the life expectancy numbers low across several world countries. This is due to the serum package, and poisonous attacks imposed on your country by rouge usa uk and the rouge old world order. They can weaken any organ and also kill the target subjects, weakening including and not limited to skeletal system, bones, joints, musculature, losing weight, to weakening all blood parameters. They could also use body temperature variation, to induce full weakness, and instant collapse. In summary, out of racism, hatred, and jealousy, they intrude into 191 world country cuisine, 191 world country food, dispense serum packages to attack 9 billion citizens rendering them physically weak, strengthless, staminaless, and energyless with reference to certain metrics they defined.

Serum package attacks the following brain regions

- These serum packages could also act on some brain regions, that could negatively impact the normal regular functioning of all physical organs.

Serum package estimated timeline of action

- Several hours on the day, and sustained attack in the Life cage, to render citizens of 191 world countries physically weak and without strength, stamina, and energy.

Objective

- Self proclaimed strength of rouge usa uk in rouge old world order. Impose LIFE CAGES and drive physical weakness in to the lives of 9 billion people, across the 191 world countries.

Purpose

Call themselves strong, and call 9 billion people from across 191 countries weak. Force division, strong and weak, and exploit both the divided groups in LIFE CAGES.

Camouflage. do'nt be deceived. They will sell this as strength building product. This is absolute nonsense, and you need no strength building in ages of 1-60, and you only consider Medical council recommended supplements between ages of 60-99. You take their bait, you will die. Your life will be destroyed. You will be caged in Life cage.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Case Study 42 Description. While rouge usa uk imposed life cages, to induce maximum pain, torture, which is like death to human beings, their grand plan to attack 9 billion human beings across 191 world countries, because they were dripping with unbelievable amounts of racism, hatred, and jealousy, included using sustained serum packages designed to attack, resulting in the 9 billion becoming mentally weak, incompetent, talentless, and with no intelligence.

Precondition to be understood by all the 191 world countries, and 9 billion people of the world.

The regular school results, college results, other achievements in academic competitions, define students, citizens mental ability, competence, talent, and intelligence levels. All students and citizens across the 191 world countries, with some marginal adjustments in percentages proportions distribution, have enough talent to contribute to the rise of their country, with enough mental ability, competence and intelligence levels. All human beings are predisposed with enough talent, and intelligence, which will be on display with locally sourced original food, with no poisonous serum packages in them. For genetics, the colored men, and the dark men genetics will be available at the 'International Sperm Bank', for couples to choose a different genetic father to conceive a child.

Serum package attacks the following organs

- These serum package do not attack any physical organs directly.

Serum package attacks the following brain regions

- Rouge usa uk, designed the rouge old world order to selectively draw the ones they considered according to their measurements, talented and intelligent to their country and attack the others in 191 world countries, 9 billion citizens, with serum packages that attack several brain regions. Like I have already introduced in 'Brain cage' case studies, serum packages that switch off, or diminish the activity of at least the following brain regions, Analytical ability region, Aptitude, and mental ability region, and Information processing region, are available and used by rouge usa uk, against the world country citizens. These serum packages when used against target subjects in a sustained way, will truly by way of poisons and counter molecule actions, diminish, reduce, and result in extremely low mental ability, competence, talent, and intelligence levels. Reduced mental ability, competence, talent, and intelligence levels, of your country citizens means reduced contribution of your citizens to the rise of your country. This is the agenda to use these serum packages, at 9 billion citizens, across 191 world countries, out of extreme unbearable dripping racism, hatred, and jealousy of rouge usa and uk.

Serum package estimated timeline of action

- Several hours on the day, and sustained attack in the Life cage, to render citizens of 191 world countries mentally weak, incompetent, talentless, and with no intelligence.

Objective

- Rouge usa uk in rouge old world order self proclaiming high IQ, their defined metric, and high intelligence. Impose LIFE CAGES and drive mental weakness in to the lives of 9 billion people, across the 191 world countries.

Purpose

- Call themselves intelligent, and call 9 billion people from across 191 countries not intelligent and incompetent. Force division, intelligence and incompetence, and exploit both the divided groups in LIFE CAGES.

Camouflage. do'nt be deceived.

They will sell this as intelligence building product. This is absolute nonsense, and is intended towards taking your mental ability, competence, talent, and intelligence, to extreme low, abyss by continuous switching off of several brain regions. You take their bait, your life will be destroyed. You will be caged in brain cage Life cage.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law. MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Case Study 43 Description. While rouge usa uk imposed life cages, to induce maximum pain, torture, which is like death to human beings, their grand plan to attack 9 billion human beings across 191 world countries, because they were dripping with unbelievable amounts of racism, hatred, and jealousy, included using extreme high number of adhd counter molecule packed serum packages, designed to result in 9 billion with deteriorated brain functions.

Precondition to be understood by all the 191 world countries, and 9 billion people of the world.

Precondition similar to the previous case study. The regular school results, college results, other achievements in academic competitions, are indicative of students strong attention, listening reading comprehending writing and working skills. Students with such strong skills are in all the world countries, statistically with marginal percentage variations across countries, that can contribute to the progress of their countries. Further, all human beings are predisposed with enough attention, listening reading comprehending writing and working skills, and can deliver work at above average or high productivity, while they consume locally sourced original food, with no poisonous serum packages in them. Explaining it another way, vast majority of population across the world countries have required amount of attention span, to lead their full life, and deliver work with acceptable productivity levels for their countries.

Serum package attacks the following organs

- These serum packages do not attack any physical organs directly.

Serum package attacks the following brain regions

Rouge usa uk, designed the rouge old world order to attack the 191 world countries, 9 billion citizens, with 'attention deficit counter molecules, poisons' that will reduce the productivity of the target citizens, steeply, to extremely low levels, resulting in low productivity and contribution to their countries. Like I have already introduced in 'Brain cage' case studies, rouge usa uk have created rouge counter molecules that are used in serum packages to attack several brain regions. These serum packages can switch off, or diminish the activity of at least the following brain regions, Reading comprehension region, Writing, authoring region, Analytical ability region, Aptitude, and mental ability region, Scholastic ability region, Information processing region, which are used by rouge usa uk, against the world country citizens. These serum packages when used against target subjects in a sustained way, will truly by way of poisons and counter molecule actions, diminish, reduce the attention span of target subject and result in deteriorated brain functions, and near zero productivity. While adhd serum packages are used against all citizens, its usage, and attack, which would result in life altering, life destroying outcomes, are when they are used to attack students in schools and colleges. These attacks are directed towards the talented and brilliant students, to reduce their competence levels, by the rouge usa uk in the rouge old world order. This segment of counter molecules, and their various permutations, and combinations of attacks on various brain regions, are extremely high number of adhd counter molecule packed serum packages, designed to result in 9 billion citizens with switched off brains, 90-100% attention deficit induced, unable to do any work for hours and entire days, extending to weeks and months when attacked continuously, and resulting in deteriorated brain functions. Rouge usa uk and rouge old world order use these rouge serum packages, at 9 billion citizens, across 191 world countries, out of extreme unbearable dripping racism, hatred, and jealousy, and also to block your country, the world countries from progressing. New world Order will ban these serum packages and provide the direction and guidance to all the world countries, to reach their economic objectives.

Serum package estimated timeline of action

Several hours on the day, and sustained attack in the Life cage, to render citizens of 191 world countries with disability like attention deficit, totally destroying their productivity and country productivity indicators.

Rouge psycho 'serum package technology' case studies, used in the present, by rouge old world order, usa and uk, against citizens of 191 world countries, 9 billion people, which was to get sinister, devious, diabolical, and horrific in future.

Case Study 43 continuation. While rouge usa uk imposed life cages, to induce maximum pain, torture, which is like death to human beings, their grand plan to attack 9 billion human beings across 191 world countries, because they were dripping with unbelievable amounts of racism, hatred, and jealousy, included using extreme high number of adhd counter molecule packed serum packages, designed to result in 9 billion with deteriorated brain functions.

Objective

Rouge usa uk in rouge old world order, wanted to slow down, and stop all work, progressive work from happening across the 191 world countries. The adhd serum packages ensure no work gets done, and country remains unproductive with low, and poor economic indicators. Impose LIFE CAGES and force zero attention and zero productivity in to the lives of 9 billion people, across the 191 world countries.

Purpose

- Call 9 billion people from across 191 countries as students, citizens with low and poor, attention listening reading writing comprehending skills, and force zero productivity.

Camouflage. do'nt be deceived.

- They will use this to sell attention enhancing products. This is absolute nonsense, since the source problem, is created and induced to people. All of this is intended towards taking your mental ability, competence, talent, and intelligence, to extreme low levels, by continuous switching off of several brain regions. You take their bait, your life will be destroyed. You will be caged in brain cage Life cage. This is the case of rouge usa uk creating and inflicting diseases to world citizens, and selling fake fabricated cure to the created disease.

191 countries, 9 billion citizens to unite against usa and uk and against serum technology, in New World Order. STUN, Medical council, and Judicial council will enforce law.

MEDICAL COUNCIL to list the poisons, counter molecules used into the banned list of substances, along with chemical formula and molecular structure.
