This must be clearly understood by all countries and the world citizens. When the economic slavery is eliminated by a neutral currency such as 'Earthling' currency that is not a local domestic currency of any one country, that terminates all forms of other slavery.</p> <p>It delivers true independence to the World</p> <ul style="list-style-type: none"> Real Freedom to all 193 countries <p>The day Project Earthling© goes live might be declared as the 'WORLD INDEPENDENCE DAY'. THE DAY WHEN ALL 193 COUNTRIES GOT FREEDOM AND INDEPENDENCE.</p> <p>It ends all forms of bribing and sponsoring illegal activities in another country</p> <p>A suitcase of USD has been used as a bribe by USA for the last 240 years across the world covering all 193 countries. They were the one who built the 'havala' network to exchange the USD bribes doled out in all other 192 countries in local currency to get the USD currency back into their country.</p> <p>When bribes in USD across the world are terminated, the worldwide problems 'created by USA, UK, in a planned, well thought out plots to destroy the other countries' would come to an end. Real 'law and order' shall start to show its effects across the 191 other countries. It will have its positive effects on USA and UK also. They will begin to cure their diseases and vices.</p> <p>The world must be properly governed by a real union of countries, a genuine version of UN that is paid in Earthling currency.</p>	<p>For the 100 or more countries that are looking to get rid of poverty and achieve progress and prosperity:</p> <p>It delivers a roadmap to all the countries to follow and emulate for their own country's economic growth. This roadmap could be used by poor, economically backward, developing countries, and emerging economies.</p> <p>GEC will give 'Economic development' packages for poor and economically backward countries.</p> <p>The combination of economic policies rolled out by Indian economic council, and the series of initiatives that will be launched by Earthling foundations over the next 30 years will be the full roadmap or blueprint for the world countries to emulate.</p> <p>The 100 or more countries looking for progress and development, will reach their own countries economic goals in decades to come, and at the pace at which they choose to emulate the efforts within their countries.</p>
