With reference to my authored copyright work, liability paid into my bank account in International Trade and Business Bank, ITB Bank in INDIA, in the World neutral EARTHLINGS currency. I request all the 'INDIA regional language media houses' to start the work of translating these AUTHORED COPYRIGHT WORK into the regional language and prepare to publish the information and details for your subscribers. Here are few of my remarks about translating this voluminous information into INDIA regional languages. As an example, with reference to a POV, first read the POV, ones or a few times to grasp the entire jist of the POV which is to be translated. Then taking few lines, or few sentences at a time, translate the jist into the INDIA regional language. The jist, essence, implied meaning and correct interpretation are of the highest importance and significance. Do not recommend word by word, literal translations, losing the essence and jist of the work. Or using such literal replacing the word translation tools.
