To, The Senior reporters, who have direct contacts to your decision taking Editors, and Owners of your Media house, publishing and broadcasting,

Press release with the print out of the authored work will be issued. A copyright application for the work is filed with the INDIA copyright office. POV PE 1 and POV PE 2 are of the greatest significance for 1.2 billion HINDUS living in INDIA and the religion of HINDUISM. POV PE 3 and POV PE 4 are extremely important for the 191 World countries. In particular, POV PE 4 is extremely important to terminate racism, racial discrimination, and the POV discloses the truth behind forcing the divisive tactic of white against black.

- POV PE 1, and POV PE 2 will unite and energize the religion of HINDUISM and brings the largest network of people in one country from one religion together. The united religion of HINDUISM will be the strongest union, which will easily go through all the attacks, negative tactics used against the religion in the past, financed by the rouge old world order.

- POV PE 3, and POV PE 4 will energize the World countries to understand the rouge nature of the rouge old world order, while we transition into the New World Order. The POV PE 4 will enable all the 191 World countries to declare themselves as colored countries, moving away from polarization, and racism. In this context INDIA is comfortably ahead, clearly declaring ourselves as 'colored people', and declaring the country a 'colored country'. You must expect all the 190 other World countries also to declare themselves as colored countries, taking a posture against 'racism, racial discrimination', and embracing the decentralized World.

I will also be conducting a Press conference on 18-12-2024, first time introducing my authored Macro Economic reform 'Project Earthling©', to INDIA Media houses, which would be one hour introduction, followed by one hour Q and A session.
