LEGAL REMARKS.

- I have executed, and legalized a LIVING WILL for 93 Trillion Earthlings wealth coming to me and to INDIA by the sale of my invention patent rights and execution of 62 sale agreements described in annexure T. The Living Will has language built into it, which ensures the percentage distribution to the recipients shall stay the same, despite a sale price RESET to a value greater than 93 Trillion Earthlings, by the independent valuation of Respondent, INDIA Government, or participation of 193 countries. A notarized and attested true copy of Living Will Executed on 22-8-2022 is attached with this annexure. I draw the attention of the Honorable court to the expiry date of this

Living Will, which is 31-12-2034, by which date I intend to distribute the wealth of at least 93 Trillion Earthlings to all the intended recipients in the Living Will.

- 24 out of 62 sale agreements will be executed with a one-time single payment plan built into it, and the other sale agreements will be executed with payment plan spanning from the year of agreement execution until year 2034. In this annexure, I include the 'Living Will Addendum for Year Ending 2024' executed on 29-12-2024. The addendum indicates the 'Wealth receipts' and 'Wealth distribution to the intended recipients', and includes an enclosure with definitions for Project Earthling©, ITB Bank, Treasury banks, IEC, New world Order, and TRAW. It also includes the 'Projected schedule of events slides for four years, a timeline', in which a new case number will replace the referred writ appeal. I will be executing 10 more 'Living Will Addendums' at the end of each of the 10 years, 2025 to 2034, indicating the annual statistics, annual incremental statistics of the 'Wealth receipts' and 'Wealth contribution to the intended recipients'. Living Will Addendum is not going to be a registered document. I will publish the addendums annually at my website SrinivasDevathi.com. Upon Honorable courts orders, respondent to give official formal communication addresses, key contacts information, e-mail ID'S, and direct telephone numbers of all the recipients mentioned in the Living Will. Subsequent to the execution of the 62 sale agreements through the orders of this Honorable court, if the court retains the new case in Pending status, I will conclude the distribution of wealth to the intended recipients through the Honorable court, by end of year 2034.
- According to the Living Will executed on 22-8-2022, I have pledged 90% of the wealth for a visionary goal 'Goal year 2050 for India', also referred as 'Goal year 30 FE for INDIA', to ensure India achieves all the economic objectives. By way of cascading effects of 'Goal year 30 FE for INDIA', Macro Economic guidance and direction will follow through, and replicate into the economies of all 187 world countries.

LEGAL FACTS

I present the following legal facts to the Honorable court, aligned with the executed Living Will.

- Intellectual property is one's own. In this context, my invention patent rights across 62 countries, according to PCT article 9(1) are owned by me, the liability for the loss of which is payable to me, into my bank account in INDIA. Intellectual property rights, in this context patent rights, cannot be inherited upwards in the family tree, by my ancestors, including my father and mother. Intellectual property rights, in this context patent rights, cannot be inherited laterally in the family tree, by my siblings. Intellectual property rights, in this context patent rights, can be inherited downwards in the family tree, by spouse and children.
- My divorce with Vindhya Yalmuri concluded on 25-7-2012. I attach a copy of my divorce decree showing the date of disposal of our marriage, 25-7-2012, and a copy of the one time full and final settlement 'Mediation report', dated 25-7-2012, in the Family court at Bangalore, for M. C. No. 1014/2011. With my divorce with Vindhya Yalmuri concluded on 25-7-2012, with us having no children from the marriage, there are no legal heirs to inherit my wealth from the concluded marriage.
- I attach the following LEGAL documents, ascertaining LEGAL facts related to the wealth I bring into my bank account in INDIA, from the execution of the 62 sale agreements, connected with my Living Will executed on 22-8-2022. My father Mr. D. Satyanarayana died on 1-1-2018, and could not have executed any documents representing me, or my patent rights across the 62 countries.
- My mother Mrs. D. S. Premaleela, whose aadhar card copy is attached with this annexure lives at my residential address, and she cannot represent me or inherit any of my wealth received from my invention patents. I handed over a copy of the Living Will to my mother, and she has retained the copy for her record. While this is the Legal step, she is in receipt of the Living Will, my mother cannot read english and has minimal understanding of the contents in the Living Will. She however has the overall understanding that I have an invention and I am about to receive liability payment. I shall speak for her, with regards to my invention, patent, wealth, and all legal subjects.
- I attach an e-mail communication dated 23-2-2024, sent to my siblings, sisters, Mrs Sridevi Devathi, and Mrs. Shirisha Mohan, directing them to my Living Will published at my website. This has given them legal clarity about my wealth that would be brought into my bank account in INDIA by the execution of 62 sale agreements upon the orders of the

Honorable court. This communication is legal communication for my sisters and their legal heirs. I also hand delivered copies of my Living Will to my sisters, for their record.

- For the record of the Honorable court, my father, my mother, my sisters, do not have knowledge about inventions, patents, intellectual property, Patent Cooperation Treaty, PCT Timeline, PCT procedures, Economics, business, Automotive industry, design, manufacturing, production plant assembly line, Macro Economics, Patent sale price estimations or valuations, and their ignorance could be exploited.
- I request the Honorable court to record that I have never visited a 'Sperm bank', and hence have never made 'Sperm donation'. This statement is applicable for all 193 world countries. No one can claim they are my legal heirs. Fraudulent usa citizens or uk citizens might attempt to use negative tactic, of inheritance claim coming to Judicial courts in INDIA. Such attempts are frivolous and fabricated lies.
- I also attach a brochure about the cascading effects of my work within INDIA, for achieving 'Goal year 2050 for INDIA', referred in the Living Will. This goal, also referred as 'Goal year 30 FE for INDIA', will be achieved by me by launching a series of transformative initiatives over the 30 year period, launched through Earthling Foundations Public charitable Trust, Earthling Foundations Private Trust, and by way of 'IEC, Indian Economic Council' initiatives, which would be advisory to Indian Central and State Governments, Union Territories, all from the contributions of the wealth I receive from the execution of 62 sale agreements.
- The cascading effects of these initiatives will reach all the world countries, given the replicable, and emulatable effects of the initiatives, and the Macro guidance, they receive through the New World Order unbiased councils.

LIVING WILL

OF MR. SRINIVAS S. DEVATHI; LIVING AT 63, 11TH B CROSS, 3RD MAIN
PRASHANTH NAGAR, BANGALORE - 560079, INDIA

WILL EXPIRING ON – DEC 31, 2034

THE EXPIRY DATE SET ABOVE MARKS THE END OF LAST YEAR OF THE PATENT US 8,910,998 B1, 20 YEAR IP PROTECTION TERM. THE WEALTH ACCORDING TO THIS WILL SHALL BE DISTRIBUTED TO THE ALLOCATED DESTINATION PARTIES / ACCOUNTS BEFORE THE EXPIRY DATE.

ENCLOSURES: ID PROOF OF SRINIVAS S. DEVATHI – 2 PAGES. COPYRIGHT OF PROJECT EARTHLING © - 6 PAGES.

CONTEXT:

I, Srinivas S. Devathi, Inventor to 'Systems and methods for altering the color, appearance, or feel of a vehicle surface' with patent grant from USPTO (Patent number US 8,910,998 B1 with issue date of 16-12-2014 which is valued at 22.5 Trillion Earthlings/\$; and the technology's IP rights valuation from the other 61 Non-USA countries (15 national stage and 2 regional stage applications filed by using PCT international application number PCT/US2014/046619 with filing date of 15-07-2014, the value of which is set at 70.5 Trillion Earthlings/\$)); is valued and worth a total of 93 Trillion Earthlings/\$; as of today at a conservative estimated sale price of the invention global IP rights. This is the most important asset that must be addressed in this Will. It is fair to say that most of my property / assets / wealth are intellectual property in the form of patents, patent applications, and Trademarks.

Outside of the above listed intellectual property assets; I have some property and income from other regular sources which allows me to live my regular 'Middle class' income life in India. This property is nothing that anyone in India, or certainly usa citizens or their corporations would envy about or look to steal from me.

NO LEGAL HEIRS:

I, Srinivas S. Devathi, do not have any legal heirs. I am single (divorce concluded in July 2012) with no children. So, I do not have any legal heirs; as all intellectual property in a person's name qualifies as his own earnings and any legal heirs of such property can only be his own family descendants.

Further, my siblings have no legal claim in this wealth either.

My father, who passed away on Jan 1st, 2018; has left enough (of his wealth) for my mother, to ensure her comfortable living for many years to come. Additionally, my mother would not know what to do with crores of rupees, and certainly does not know what to do with Trillions of Earthlings / \$.

Despite my mentioning of the names of my Father or Mother in one or more financial instrument forms (such as bank accounts, LIC policies, post office saving accounts, investment accounts, or other) as my nominee (for that financial instrument), this 'Living Will' shall override any such nomination forms from being extrapolated for my Intellectual property assets listed above. Further, Intellectual property is not something that is claimed or inherited upwards in the family tree.

So, neither my mother nor my deceased Father can inherit or claim any portion of the 93 Trillion Earthlings / \$ wealth or asset.

SEPARATE INSTRUMENT:

In summary I do not have any legal heirs for the 93 Trillion Earthlings / \$ valued Intellectual Property. If I choose to assign anything to my mother or siblings, it shall be done so only by 'Executing a separate contract or agreement or legal instrument'.

22/08/2022

PERCENTAGE ALLOCATIONS TO REMAIN THE SAME DESPITE A SALE PRICE RESET:

Percentage wealth allocation, and the payable receiving parties given in this document shall stay the same even if the patent sale price valuation is reset to any number higher than 93 Trillion Earthlings / \$, not limiting to and also including sale price numbers such as 220, 230, 240, or 250 Trillion Earthlings / \$.

CURRENT ASSIGNMENTS OF WEALTH FROM INTELLECTUAL PROPERTY:

The 93 Trillion Earthlings / \$ will be brought into India as my wealth in this year and next, legally via court proceedings. Depending on the way I execute contracts (Invention – Intellectual Property sale agreements) with all 62 countries; I may attract the wealth in partial payments spread over the IP tenure of my invention which ends in year 2034. As the wealth comes into my Indian Bank account(s), my yearly allocation of funds will be as given here:

- 90% of this 93 Trillion Earthlings / \$ wealth will be 'year-marked' or 'pledged' for a visionary goal defined by me called 'Goal Year 2050'; to make India a developed country.
 - o Half of this 90% (45% of total wealth) will be paid to Indian Government, all State Governments and Union Territories, with the following breakdown.
 - 20% as Long-term capital gains tax on the wealth earned to Indian Govt, payable to Commissioner of Income tax department.
 - 10% as 'India's Progress & Development' funds payable to Indian Govt, to Prime Ministers India development fund.
 - 15% distributed across all States and Union Territories, in proportion to their population (use census data from most recent census). For states, payable to each state Chief Ministers (respective) State development fund. For Union Territories, payable to Presidents Union Territory development fund.
 - According to the points mentioned above, I shall annually pay (or distribute) this portion of wealth and provide guidance to Indian Government and all State Governments on doing the right projects, the right way until 'Goal year 2050' is achieved, by heading a unit called 'Indian Economic Council'.
 - o The other half of this 90% (45% of total wealth) is 'year-marked' or 'pledged' for Private side development projects / work which will be driven by me across India (which will further be followed and possibly emulated by at least 100 other developing and economically backward countries); through 'Earthling Foundations'. Initiatives will be rolled out through two Earthling foundations, one public and another private, which will get funds allocation with the following breakdown.
 - 22.5% will be allocated to the Earthling Foundation Public charitable Trust.
 - 22.5% will be allocated to the Earthling Foundation Private Trust.
 - The Legal entity of Foundation is expected to be formed soon. The registration papers for the foundation are prepared and can be registered anytime at the local sub-registrar office. However, recruiting the second trustee and other trustees is taking time, as I am looking to find the right Trustee who is patriotic, and energetic to work for this country all his life with commitment and dedication with my guidance. Updates on this will be provided in the next version of Living Will.
 - Both Private and Public charitable Earthling Foundation Trusts will roll out series of initiatives over the next 30 years, with allocated expenditure annually for projects that must be completed within that year; to achieve 'Goal year 2050'.
- 10% of this 93 Trillion Earthlings / \$ wealth will be 'My personal wealth' in my personal bank account and spent on my personal expenses and select personal projects across India.

I, Srinivas S. Devathi, inventor to 'patent US 8,910,998 B1'; state that this is my Current active Living Will and this is how I want the money allocated, while alive or dead.

This Living Will shall be accompanied with an addendum document which will be versioned over the years to come, which will contain all other details such as registration numbers, bank account numbers, and up to date contributions paid to the receiving parties.

Project EARTHLING
Srinivas D.S. – Jan 15, 2019

Author:

Title: PROJECT EARTHLING.

The first step towards a balanced world and more equality.

This initiative brings about more trade and economic equality.

This is the most important reform required to global economic situation as it stands today.

Problem Definition: The current global trade situation is as given below.

- 1) All global trade is predominantly done in USD.
- 2) All the important global trade commodities are priced in USD.
- 3) And it is the currency of one country – USA.

उप पंजीयन अधिकारी प्रतिलिप्याधिकार
DEPUTY-REGISTRAR OF COPY-RIGHT

This has resulted in global trade commodities being subjected to fluctuations based on two moving (varying) frames of reference. The USD strengthens or weakens based on its demand and other factors. The commodity price fluctuates based on its demand and supply.

Secondly, global trade between countries (import / export) and forex transactions happen in so many different currency exchanges. Currency A has to be exchanged to currencies B, C or D and vice versa. The many to many currency conversions add complexity to central banks and other banks. In general, global trade is subjected to multiple currency conversions, is complex and not standardized.

Background thinking:

If you look at last 3 to 4 centuries, USA has had a vice like grip on the world and would not let go. They want to control everything, everyone, dictate terms to everyone across the world. If you look at last 100 years in particular; USD became the standard for global trade and transactions, making it the most sought-after currency. This allowed USA to become a 'Mint based economy'; to print as much as they want and inject into the global trade system, with no checks or balances of any kind for themselves or their country's GDP numbers. It is evident in:

- a) The military arms / weapons stockpile they have amassed over decades. The fire power is enough to destroy earth. Their military is stationed in so many countries, despite the costs involved.
- b) The number of wars they have waged across the globe and yet with no dent to their economic condition, when you factor in the military and war expenses.

Project EARTHLING
Srinivas D.S. – Jan 15, 2019

- c) The standard method of bailing out all Corporations / Banks in USA by injecting money into the system. E.g., 2007-2008 Credit crisis due to Housing bubble burst; they bailed out all banks by printing money.
- d) Most of the USA Corporations are bloated with surplus funds and cash, because of available credit, as Banks could be bailed out anytime.
- e) Despite all the expenses as listed above, USA economy has not weakened in the last few decades. And USD does not show a sign of weakening, due to the global demand.

One must think where all this money spent came from without having a negative impact on their economy. Their economy does not have a downturn and their currency has not weakened. It always seems to strengthen against most global currencies. In fact; it is said that waging wars is a means of driving GDP numbers by producing more weapons (e.g., Lockheed Martin stock price earnings). They have had this kind of a run because USD has been a standard for global trade for so long. Simply put, they have made all the other countries look like dumb idiots / morons for so long. Should the World continue to deal with this imbalance on Planet Earth? Should USA continue to dominate and in doing so, block all other countries growth prospects and development opportunities?

I, as Indian citizen realized that such a global environment is not conducive for India to become a developed country. This needs correction, if the aspirations of 1.32 Billion Indian citizens must be met and realized. Since this is a global problem, the same thought applies to every non-USA country. I personally am interested in making India a developed country by year 2050 (Goal year 2050).

The Solution: A new global trade and exchange currency, which is not the currency of any single country.

- 1) A new global Trade currency, import / export standard currency which is not a currency of any single nation in the World.
- 2) I have called it as 'Earthling'. The currency symbols as I have envisioned are given towards the end of this document. In common usage (terminology) Earthlings could be called as 'Ellies'.
- 3) Earthling will hold its value for a period of 10 years. At the end of 10 years, a council of global economists will either strengthen it or weaken it depending on the needs of developing and least-developed countries. And it shall hold that value for another 10 years. The cycle will repeat.
- 4) First valuation of Earthling could be same as USD when rolled out. Earthling will not have a decimal such as paisa, cent or penny equivalent.

In such a scenario, all global trade (Import / export between any number of countries), global commodity pricing will be done in Earthlings. The commodity prices are against a single frame of non-fluctuating reference. The pricing truly reflects the commodity demand / supply situation. In turbulent economic times, it will be the safest currency to offload wealth into. What better than something that holds the same value for 10 years. Investment bankers will love such an instrument. Investors can ride turbulent times with much ease.

Project EARTHLING
Srinivas D.S. – Jan 15, 2019

Features / Advantages:

- 1) Earthlings will be printed only in 2 or 3 mints, all located in a single place. These mints will be monitored by representatives from all countries (at least one from each country).
- 2) Most forex reserves held by each country must be in Earthlings.
- 3) However, Investment Bankers who trade in currencies, can be allowed to do so, on a single global standardized platform.
- 4) Each country will have to hold only their local currency and Earthlings as Foreign exchange reserves. If their Central Banks want to hold some reserves in other currencies (purely from an investment or holdings vantage point), they could do so.
- 5) At international airports, point of departure, the forex stations should allow buying Earthlings against local currency. At the point of destination, forex counters should be able to convert Earthlings to the local currency of that country. So, most international travelers could only carry Earthlings and travel to any country and shall do fine upon landing.
- 6) All global trade commodities will be priced in Earthlings.
- 7) All export items of all countries will be offered while priced in Earthlings. It will be a single global trade market, for each country's export items.
- 8) All global fund transfers (international wire transactions) will happen in Earthlings, thus simplifying global trade / transactions. E.g., Whether you are transferring funds to Europe, China, Japan or Korea, you always do the international wire transfers in Earthlings, despite their local currency. The recipient Bank upon funds receipt in Earthlings, could either hold them in Earthlings or convert it to their local currency, as per its preference.
- 9) Global banking is simplified. Many to many currency conversion headaches are removed for Banks.
- 10) Most importantly, this brings economic and trade equality to planet earth. World will become a single market place for most exporters.
- 11) It gives equal opportunity to all countries and brings balance to global trade.
- 12) Countries with no currency today, should come up with their own currency which is at a certain proportion against Earthling, to enable them to do trade or generate wealth from what they could export.
- 13) All developing and least developed countries benefit significantly from this. USA and its economy will also be subjected to checks and balances.
- 14) BRICS can take advantage of this new system and can be much more competitive on the global stage, as undue advantage of USA that has gone on for centuries is eliminated.
- 15) Allows India and China to get to number 1 or 2 positions in the economic scale in few decades. This reform is the most important to global economic situation as it stands today. Without this reform, BRICS and other countries aspiring to develop stand no chance.
- 16) Each country could have a special 'International trade Bank' which allows bulk Earthling transactions to other entities in other countries, for registered global traders who do import / export of goods. As another thought, all international trade must be done online and should be transparent to the government, CB and the special International trade Bank in the country.
- 17) All banks should allow international wire transactions in Earthlings, in smaller amounts with a cap, for regular citizens.

Project EARTHLING
Srinivas D.S. – Jan 15, 2019

18) Local or domestic business; whether online or offline, must be conducted in the local national currency only.

Countries / Geographies:

Let's look around the World and think which Countries would support this reform. The answer is every country other than USA will give full support and vote to this global economic reform. Once this is done, World will be a truly competitive space where talent, capability and effort will be truly rewarded. And World will get a break from USA that is constantly blocking, constantly policing all other countries to stop their progress and growth. India must take the lead to drive this initiative through G20 summit and other global forums.

Roll-out Steps: The procedural steps involved in launching 'Project Earthling' will be as follows.

Step 1 - The initiative must be introduced at several global forums, such as G20 Summit, WTO, WIPO, UN, World Bank, IMF and all country governments and CB's.

Step 2 - Discussions and voting. The introduction would lead to discussions at many levels. Post discussions, a UN voting must be conducted, with one vote per country on the subject. This initiative will be voted in. A governing body must be established (name, governing team and other details).

Step 3 - Once the initiative is voted in, we need to design the currency bills. (a) Billion and Million Earthling bills for CB holdings and exchanges. (b) 1000, 500, 100 Earthling bills for citizen (international travelers) exchanges only. There shall be no other denomination (for e.g., currency bills of 50, 10, 5, 2 or 1 used for local purchase transactions). As no country allows purchase/sale (or local / domestic retail businesses) by using Earthlings. It is only an International trade currency and foreign exchange currency and not for domestic trade or business.

Step 4 - 3 Mints that will print Earthlings shall be set-up in a single location. These mints will be governed by all countries (their representatives); and will be under 24*7 surveillance. The location should ideally be in India, China or Europe. City to be selected.

Step 5 - Flushing USD's from all non-USA countries. Earthlings shall be printed to replace USD holdings of all countries (their CB's). The exchanged USD's should be retrieved and trashed / shredded (as in truly replaced).

Other ongoing steps - As per CB's purchasing needs against their local currency (or other currencies they hold), they could buy Earthlings from the 'Earthling' governing body. Such an activity of buying Earthlings shall be an ongoing activity.

This may be called as a social scheme, that I do not endorse. I believe that each Country must earn its living and get rich. If the governing body chooses an Earthling distribution step, in a rare global economic distress situation; they shall print and distribute Earthling's equally to every country.

The entire reform could be rolled out in 1 or 2 years. This baselines the World economic situation with a much better balance and gives equal opportunity to all countries in global trade. All countries can aspire to develop and get rich, without any roadblocks.
